

Extension Bulletin Illustrations Photograph Collection (P 020), 1915-1963
Preliminary Container List (page 1 of 1)

Boxes 6-7

1-393. 15 plates of fish from 1906 lithographs. A. Holt; 4x5 glass negatives

Box 8

Nitrate negatives

Box 1

Unidentified prints.

Box 1 (P020:0395-P020:0656)

- 395. Home-made Duster on car. Jackson County, ca. 1936
- 396. Pruning Tools

- 397. Threshing grass seed
- 398. Cattle in pasture
- 399. Harry Schoth in Alfalfa Field Demonstration, ca. 1939
- 400. George Hyslop in Alfalfa Field Demonstration, ca. 1939

- 401. Truck loaded with cotton for the Mattress Program
- 402. Making Home-made Liquid Lime Sulfur with will equipped installation, ca. 1932
- 403. Making Home-made Liquid Lime Sulfur with limited equipment, ca. 1932

- 404. Abandoned Apple Orchards Being Removed, ca. 1932
- 405. Fruit Growers Attending Spray Demonstration
- 406. Federation Wheat Near Central Point, Jackson County, ca. 1928
- 407. Range Cows and Calf Crop - Ashland, ca. 1928

- 408. Hogs on Alfalfa Pasture, Jackson County
- 409. Filling Concrete Silo, Jackson County, ca. 1928
- 410. Alfalfa Hay - 4 Tons per Acre
- 411. Spreading Alfalfa Hay in November, ca. 1930

- 412. Trenching in Manure, ca. 1929
- 413. Tile Trenching Machine, ca. 1929
- 414. Method Demonstration Meeting, Drainage
- 415. Registered Herefords and Calf Crop, ca. 1929
- 416. Grangers Gathered to Reseed Land, Applegate District, ca. 1930
- 417. Herd of Cows

418. Bean Fruit Washing Machine, ca. 1926
419. Scheu heaters in Modoc orchard
420. Field of Baart wheat
421. Farm Bureau Picnic, ca. 1920
422. Farm Bureau Picnic, ca. 1920
423. Schere Bartletts, ca. 1915-1920
424. Comice pears on Hollywood orchards
425. J.R. McCracken and Dairy Herd of Ashland, ca. 1919
426. Farm Bureau Exchange Warehouses, ca. 1920
427. Farm Bureau Exchange, Medford, Oregon, ca. 1920
428. Office Force of the Farm Bureau Exchange
429. Dicing with horses
430. May Day, ca. 1920, no print
431. Hereford cattle
432. Registered Herefords
433. Registered Shorthorns, ca. 1919
434. Shorthorn Auction Sale
435. Shorthorn Auction Sale, Medford, Oregon, ca. 1919
436. Loading Nitrate of Soda from touring car into boxcar
437. Early truck and boxcar
438. Horse and wagon and boxcar
439. Girls picking in Comice orchard, ca. 1918
440. Picking crew, Jackson County, ca. 1918
441. Thinning crew, Jackson County, ca. 1918
442. Medford, Oregon
443. Disc harrow used by orchardist
444. Pathologist in laboratory
445. Entomologist in laboratory
446. Office of Jackson County Pathologist
447. Horticultural Inspection force standing beside their autos, ca. 1915
448. Horticultural Squad; C.C. Cate, County Pathologist; C.A. Noren, Asst.; A.C. Allen, Hort. Com.; J.C. Aitken, E. Oatman, C. Martin, & Ross Cline, Inspectors
449. Pears
450. Wood Piled for Smudging
451. Stove wood burner
452. Instrument shelters

- 453. Smudge pots

- 454. Smudge pots burning
- 455. Smudge pots burning at night
- 456. Smudge pots in orchard
- 457. Smudge pots being lit with gasoline torches
- 458. Dicing
- 459. Threshing Bent Grass Seed
- 460. Land being leveled
- 461. Oregon Turkey Growers Plant, ca. 1938

- 462. Young turkeys and range house
- 463. Roseburg cheese factory
- 464. Making a cotton mattress
- 465. Dill

- 466. Corn harvester and tractors
- 467. Corn picker
- 468. Douglas County, ca. 1940
- 469. Dusting machine drawn by horses

- 470. Harvesting Prunes
- 471. Stripping land for irrigation with horses
- 472. Truck being loaded at packing plant
- 473. Drainage Ditch

- 474. Drainage Outlet
- 475. Ditch draining Swamp
- 476. Natural Drainage Outlet Straightened

- 477. Turkey
- 478. Field Corn and Sunflowers grown for Silage
- 479. Land being fitted for border-strip irrigation
- 480. Riverdale Grange Hall

- 481. Tent Caterpillars
- 482. Dust being applied
- 483. Gully
- 484. Soil erosion

- 485. Threshing Grass
- 486. Threshed Grass Seed
- 487. Dressed Turkey
- 488. Grading dressed turkeys

- 489. Prize winning turkeys
- 490. Melon packing plant at Melrose
- 491. Harvesting peas with horses, ca. 1929
- 492. Cow-drawn cart

- 493. Insulated egg storage room, ca. 1930
- 494. Bee Smokers
- 495. Docking lambs
- 496. Blast at Ditching Demonstration
- 497. Horse-drawn mower

- 498. Pump irrigation outfit, ca. 1918
- 499. Irrigation outfit, ca. 1917
- 500. Irrigated field, ca. 1917
- 501. Early automobiles

- 502. Early cultivator
- 503. Bank of Commerce, ca. 1916
- 504. Sorghum Field
- 505. Professor Millward with Lane County growers

- 506. Corn in stocks, Lane County, ca. 1918
- 507. Picnic, University of Oregon, ca. 1919
- 508. Agents visiting a farm
- 509. Sunflowers for silage, ca. 1919

- 510. German prisoners of war picking beans, Willamette Valley
- 511. Soldiers on furlough picking hops
- 512. Men from U.S. Naval Hospital, Camp Adair, Benton County, Oregon hoeing Creeping Red Fescue Grass
- 513. Store exhibits an aid to Recruitment. One of many window displays used in store windows during emergency need for bean pickers in Marion County. Sign describes the job: free transportation, high wages, average \$6 to \$8 per person per day, average \$20 to \$30 a family per day, good camping accommodations. In the background are posters of army recruitment.

- 514. A roadside sign used effectively throughout the harvest season in Marion County calling for employment
- 515. Weighing time in the bean fields for a mixed platoon of WLA and youth workers. Bean sacks are weighed at the end of the day or when moving the crew to another field. Many looked hot and tired.

- 516. O.S.C. co-eds stake hops on Saturdays during Spring quarter
- 517. Barrels of cucumber pickles harvested by Mexicans, Columbia County

518. Mexicans harvesting cucumbers, Acreage 401; tonnage 3,372.2; Mexican man hours used 144,525; dollars earned \$116,794.83; lbs. of cucumbers for sour pickles 173,000; lbs. cucumbers for sweet pickles 910,563; lbs. of sweet relish 1,667,061; and lbs. of cucumbers for Genuine dills 4,006,210. Columbia County
519. Flag-raising ceremony, Columbia County Mexican farm labor camp
520. Platoon and Independent workers loading up in Lane County
521. A platoon is having their lunch hour in Lane County
522. Millers, one of Salem's department stores, helped promote the Women's Land Army through the bean harvest with this window display
523. Women who are part of the "Housewife Special" are boarding a bus to go out and help save Marion County's bean crop
524. A street in Merrill Migratory Farm Labor Camp, ca. 1944. Office is tent at left by light pole, Nurses tent next,
525. Sign near Coburg Camp, ca. 1944
526. Coburg Camp Office, Left to right, Glenn Griffith, Manager of Coburg Camp; M.C. Wilson, U.S.D.A.; Dean W.A. Schoenfeld, Oregon State College in front of the office, ca. 1944
527. Coburg Camps facilities: laundry shelter, showers, and hot water boiler, ca. 1944
528. Family groups picking the beans in Washington County. Mother trains the girls how to pick beans efficiently
529. People harvesting peas in Umatilla County, Regular crews of town women worked on the belts where the peas are inspected before going into the cans. Pendleton, Oregon
530. Mexican Nationals pulling onions in Klamath County, ca. 1943
531. Mexican Nationals hoeing sugar beets in Malheur County, ca. 1943
532. Farm labor supply center for inter-county workers in Coburg, Oregon, ca. 1943
533. Pickers leaving Coburg, Oregon camps for the bean fields, Men and women on a truck, ca. 1943.
534. Homemade loader picking up baled hay in the field, ca. 1943
535. Pea viner preparing peas for cannery, ca. 1943
536. Mr. Leonard Grant, government hunter, exhibits the result of his skill in the form of a large cougar, Mr. Grant owns a stock farm in the Harlan area.
537. Two types of Indian shell mound at Ten-mile Creek south of Yachats. Low mounds covered with sod are almost pure shell, with very little mixture
538. Low mound at Ten-mile Creek south of Yachats, Very little mixture
539. Close-up of shell deposit material, Individual shells are partially decomposed, break

- up with handling
540. Skunk cabbage and buttercup in pasture, at time spraying was done with 2,4-d, Skunk cabbage was controlled, buttercup showed only temporary effect. Treatment in April, Watter Kiser farm, Taft.
541. Soil fertility is reflected by heavy production in Malheur county, Onions for war needs, ca. 1942
542. Visual evidence of the size of Malheur County and of the area served by the county agents' office. This picture shows the county agent studying a roadway sign post in southwestern Malheur County while on a trip to determine the area infested with Mormon Crickets and to arrange for control measures where necessary. The sign board points to Jordan Valley, 92 miles away and Jordan Valley is still 95 miles from Ontario where the office is located. On this particular three day trip, nearly 600 miles were covered, all in Malheur County, only about 15 miles of the same road was retraced and 19 farms or ranches were visited. Malheur County is 168 miles long and 66 miles wide as the crow flies, has a total area of 6,325, 120 acres, has 2884 miles of public roads and approximately 2500 farms, ca. June, 1939
543. Hybrid Corn Growing contest in Malheur County, 1939. The picture is of E.R. Jackman harvesting corn in hybrid growing contest, H.N. Black Farm, Oregon Slope in October 1939.
544. Seed cleaning plant purchased by Malheur County farmers and Blue Mountain Seed Growers Association, 1940. The organization of the cooperative to purchase this plant was one of the major activities of the county extension office in 1940. This plant contains the most up-to-date seed cleaning equipment to be found in the Lower Snake River Valley, This building and equipment cost nearly \$30,000. This plant cleaned over two million pounds of seed in 1938.
545. Effect of excluding insects from red and ladino clover, ca. July, 1940. The screen used on the cages was of about the same mesh as ordinary window screen and extruded all but the smallest insects, A little less light and wind might have been detrimental to seed setting inside the cages but could have hardly made the enormous difference indicated, Probably pollinating insects are of more importance in clover seed yields than has been realized. Dr. H.A. Scullen, Entomologist at Oregon State College, spent almost a week making sweepings and studying insect population in seed fields throughout the county. This study was made to serve as a basis for working out a proposed research project on the effect of insects on seed yields.
546. Dairy Husbandry in Malheur County. Activities of the county agents have increased over the years which has included the organization of a dairy herd improvement association. The organization was completed in 1940. At the start of the association only 26 herd owners with 16 days of testing had agreed to membership but this was gradually expanded until 34 herds with 24 days of testing was reached.

547. Owyhee Dam located in Malheur County, was constructed in 1935. In the spring of 1936 the Owyhee reservoir was filled to capacity and a great deal of water had to be let through the dam. There was enough water wasted to have practically half filled the reservoir again. There now remains in the reservoir over six hundred thousand acre feet of usable water, this, in a year when run-off was about normal, When the reservoir is filled to capacity there is practically a two year supply available.
548. Land clearing operations on the vale project. Each year the Agent arranges for a number of fertilizer trials for the purpose of gathering data which may be of value at some later date, In 1932 the trials of super-phosphate on red clover and alfalfa was given.
549. Richard Davis' calf at the end of a thirty-five mile ride by auto in Malheur County in 1924.
550. Coburg Farm labor camp. A view down one of the streets, ca. 1946.
551. Coburg farm labor camp, Young girl does the washing while the rest of the family is out picking beans in 1946
552. Filbert harvester. Filbert harvester of this general type helped solve the filbert harvest labor problem in Lane County, ca. 1946
553. Filbert harvester, Filbert harvester of this general type helped solve the filbert harvest labor problem in Lane County, ca. 1946
554. Equipment demonstration of land leveling on September 9, 1947 by the Linn-Lane Soil Conservation District cooperating with the Oregon State College Extension Service and equipment dealers. Large land scraper plane demonstrated by the BE-GE Manufacturing Company
555. Equipment demonstration of land leveling on September 9, 1947 by the Linn-Lane Soil Conservation District cooperating with the Oregon State College Extension Service and equipment dealers. Eversman land plane PL-12
556. Nut harvesting machine. Filbert cleaning machine which nuts are subjected to a blast of air in the cage that takes out refuse and leaves filberts clean, excepting for husks that are removed in another machine. The labor shortage during the war followed by low prices of filberts forced filbert growers with large acreages to develop nut harvesting machines
557. Filbert harvester that is pulled by a tractor and operates satisfactorily.
558. Dean Schoenfeld of the Oregon Experiment Extension
559. A.A. Reed, ca. 1924, County Extension Agent
560. J.R. Gurton and Hattie Mae Rhonemus presenting summary of 1951 4-H Club work
561. Charles W. Smith addressing annual Council meeting, 1950
562. Klamath potatoes, ca. 1937
563. Farm Security Administration labor camp at Merrill for potato harvest workers.

- Three such camps were established in the Klamath Basin, one at Merrill, one at Malin, and one at Tutelage, California
564. instructions and demonstration on firefighting and how to make a fire trail by the "one lick" method. Boys being trained by U.S. and State Forest Service, U.S. Indian Service, Klamath Forest Protective Association, and U.S. Forest Park Service, Klamath 1941
565. Boys putting a fire trail around a fire which was started for this training purpose. They are using the "one lick" method of trail building. These boys will be hired during the fire season at \$105 per month and each agency listed in 564 will use the boys to make up their crews, Klamath, ca. 1941
566. Loading automotive junk for salvage shipment in Klamath, 1941. One truck man hauled 265 tons of automotive junk from one of the old city dumps on a return load to California after hauling vegetables from California to Klamath Falls
567. Hoist on truck used for loading a scrap. Firm shipped 7 such carloads of scrap iron from Klamath County during April, ca. 1941
568. Central salvage depot for Klamath county, established at 6th and Commercial Its. All people who had salvage material to donate were asked to leave it in this scrap pile. Scrap was sold on sealed bids and money used to get in more scrap and balance divided among was activities.
569. One scrap pile in Klamath Falls, showing some of the scrap gathered in official salvage scrap pile, 1941
570. Shipping and sorting warehouse in Klamath, 1941
571. Potatoes are dumped from the truck which brings them from the field on to this conveyor leading to the sorting machine, Klamath, ca. 1941
572. Showing operations of the Packing Company. First-grade potatoes coming over the grader after off-grades are removed, Klamath, ca. 1941
573. Sacking and weighing one of the sacks of potatoes off the end of the grader. Klamath, ca. 1941
574. The loading platform where an average of one car of potatoes every 55 minutes is being filled, Operations of the Packing company, Klamath, ca. 1941
575. Car of U.S. No. 1 Klamath netted gem potatoes headed for San Francisco, ca. 1941
576. Potato storage, ca. 1938
577. Potato harvest, Klamath county, ca. 1932
578. Home-built equipment, 12-foot cutting bar and curlers for harvesting small seed on Geary Bros. Ranch, Klamath Falls.
579. Cutting bar and equipment in operation showing excellent way in which curlers windrow, and the clean cutting of the 12-foot sickle bar in Klamath county
580. Tin fences used in grasshopper control in the Upper Klamath Marsh. Tin 14" high

with holes in the ground every 50 feet. This proved particularly effective in control operations, ca. 1937

- 581. Tin fences were built in a V shape in advance of moving hordes of grasshoppers, Klamath County, ca. 1937
- 582. Shows a few grasshoppers taken in one of the many holes used with tin fences in the Upper Klamath Marsh, ca. 1937
- 583. Shows typical pit 50% filled with hoppers. Close examination would show hoppers falling into the pits in a constant stream, similar to running water, A total of 92 pits were dug which captured 3,056 cubic feet of hoppers, totaling about 3,000,000,000 hoppers, as estimated by measuring one cubic inch of small hoppers. Fences and pits were particularly important in trapping large quantities of hoppers and aided poisoning operations by bunching hoppers in the areas behind the fences, poisoning efficiency being increased several hundredfold, ca. 1937
- 584. County Extension Agent W.B. Parker, discussing cooperative work for advancement of horticultural interests in Lane County
- 585. Turkey Marketing cooperative, Klamath County, ca. 1931
- 586. Harvesting potatoes, ca. 1927 in Klamath County
- 587. Packing lettuce, Klamath Falls County, ca. 1924
- 588. Loading sugar beets, Dairy Oregon, ca. 1924
- 589. From sagebrush to potatoes. Malin Irrigation District in which farm lands are being rapidly developed from raw sagebrush land, ca. 1927, Klamath County
- 590. Potato cellar, just one of the 60 cellars constructed within the past two years (1927). Total storage about 5000 sacks each, or 300,000 sacks, farm storage, Klamath County
- 591. Agricultural floats prepared for the Great Northern Railroad celebration, Klamath Falls, ca. 1928, celebrating completion of that line
- 592. First prize agricultural float, Tule Lake Community Club. Railroad celebration, Klamath Falls, ca. May 1928
- 593. Road-side display of squirrels, killed with poisoned oats, ca. April 9, 1919 Klamath County
- 594. Road-side display of 204 squirrels from six quarts poisoned oats, ca. April 12, 1919, Klamath County
- 595. 466 Squirrels from two acres, secured when crew put out poison. 398 quarts poisoned oats used on ranch of 400 acres, ca. June 12, 1919, Klamath County
- 596. Judging team at Klamath County Fair, ca. 1921
- 597. Silage Cutter, ca. 1921, Klamath County
- 598. Silage Cutter used in filling silo, was operated by two horse power motor in 1921, Klamath County

599. Burner used on Tule Lake, near Malin, Oregon, ca. 1923, Klamath County. Proved very effective at that time in districts where hoppers were bunched and where they did not take readily to the poison.
600. One of the grasshopper burners in action, 1923, Klamath County
601. Grasshopper burner in action near Merrill, Oregon, ca. 1923.
602. One of the Grasshopper burners showing air and gas lines and method of encircling hoppers with fire.
603. Grasshopper poisoning squad in Klamath County, ca. 1923
604. Poisoning of a horse in Klamath County, ca. 1923
605. Poisoning of a horse and two dogs in Klamath County, ca. 1923
606. Flooding in the western portion of the Stanfield-Echo Meadows area and bridge approach washed out on highway just north of Buck's corner. Picture taken February 1, 1965 in Umatilla County
607. looking south at the Walla Walla River toward Milton-Freewater during the flood of 1964-65, Umatilla County (print is also in oversize box 20x24 for P 20)
608. Flood in Umatilla County in 1964. On the night of July 26, thunder storm activity south of the Umatilla River concentrated it's energies in an area near Nolin on Speare, Alkali, and Harris Canyon,- and upper Buttercreek. The resulting wall of water which thundered down Speare Canyon demolished a rural home, taking the life of Mrs. Ed Redman. Hardest hit areas was the city of Stanfield. Picture, looking east on the Stanfield Loopread, shows the waters of Stage Gulch rising in the town. At the peak of the flood, houses in the vicinity of the distant Vehicles, were surrounded with water 31 to 4 feet deep.
609. no print
610. Leaf Cutter bee habitat in Umatilla County, 1963. Leaf Cutter bee is a very effective pollinizer of alfalfa. Alfalfa Seed growers are working to increase the populations of both the Leaf Cutter and Alkali Bees, to provide more pollinizers for the expanding acreage of alfalfa being grown for seed.
611. Leaf Cutter habitat in Umatilla County, 1963. The bee collects alfalfa pollen, deposits it in the straw to provide nourishment for its larvae.
612. Herbicide control in Umatilla County, 1962. Air sampling and water catching devices used by agent and crew to ascertain infiltration of volatile herbicide At left of photo is a small air vacuum pump, which pulled air through ether traps packed in dry ice, to measure presence of 2,4-D.
613. First puncture vine weevils released in Oregon by Victor W. Johnson and Robert W. Every, Umatilla County, 1962. They released 200 *Microthous lareynii* weevils on the noxious weed, Puncture vine, on the morning of August 2, 1963

614. Fire control, Washington County, 1943. Equipment such as the one pictured was secured by many combine operators to carry on their machines. Several fire units also had these hand outfits as part of their equipment.
615. Fire control, Washington County, 1943. A view of some of the equipment collected by a fire crew.
616. Eastern Oregon experiment station Horse barn & Machine Shed, County of Union, ca. 1942
617. A typical field scene of the type of land suitable for the production of Austrian winter peas, Union County, ca. 1941
618. Field pictured yielded 1750 pounds net of Austrian winter peas per acre. The average wheat yield per acre for this type of land averages less than 30 bushels, Union County, ca. 1941
619. An excellent job of harvesting Austrian winter peas results from the use of the "pick-up" type reels, Union County, ca. 1941
620. No matter how flat the Austrian winter pea vines may lay in the field, the "pick-up" reel gets them. This 12-foot outfit is doing a splendid job, Union County, ca. 1941
621. Harvesting Austrian winter peas in bulk, with a 16-foot Holt combine, Union County, ca. 1941
622. Sacking Austrian winter pea seed requires buld equipment on combines, Union County, ca. 1941
623. The average combine will harvest from 10 to 16 acres of standing Austrian winter peas per day in 1941, Union County
624. Austrian winter pea seed harvesting scene in the Sand Ridge area, Union County, ca. 1941
625. Pea seed sacked on the combine is ready for delivery to the fumigation and cleaning plant, Union County, ca. 1941
626. Hauling Austrian winter peas seed from the field is a two man job in 1941. Each burlap bag contains an average of 140 pounds of peas. This part of the war crop production program is not a woman's job, Union County
627. Field run peas stacked in the vault awaiting fumigation. Methyl Bromide is used in fumigation for pea weevil, Union County, ca. 1941
628. After the vault is filled with peas it is sealed air tight to prevent the escape of the deadly poison gas. When fumigation has been completed gases are removed by means of suction fans, Union County, ca. 1941
629. Austrian winter pea seed cleaning equipment and crew in operation, Union County, ca. 1941
630. An excellent quality of Austrian winter pea seed is produced in Union County, ca. 1941
631. Cotton bags are used for the shipment of Austrian winter peas to the South. Each bag contains a net weight of 100# of pea seed, Union County, ca. 1941

632. Tons of Austrian winter pea seed ready for shipment awaiting returns of purity test. Storage space becomes congested Union County, ca. 1941
633. Each bag of peas is tagged to show germination, purity, net weight, lot number, where grown, weed seeds present and date fumigated, Union County, ca. 1941
634. Loading Austrian winter peas for shipment to the southern states from Union County, ca. 1941
635. Austrian winter pea seed screenings and cracked peas stacked and waiting return to the farm for livestock feed. Analysis shows protein content between 23 and 29 per cent, Union County, ca. 1941
636. Union county collected and prepared for shipment 1006 tons of scrap metals between June 1, 1942 to November 15, 1942. Two hundred tons additional are assembled in the county
637. Scrap rubber drive in Union county netted 150 tons, WWII
638. First portable hay baler in Union County, totalled 750 tons harvested in 1940
639. Union County Cooperative Creamery located at Union, ca. 1938
640. Prof. G.R. Hyslop of the Farm Crops, examines late planted seed flax in July 1938
641. Blown out field which required re-seeding, Union County, ca. 1934
642. Dirt drift from wind erosion, Union County, ca. 1934
643. Ladak in rows harvested with a self-rake reaper in 1935, Union County
644. Implement used on #643 harvesting, Union County, ca. 1934
645. Range ewes (females) in winter quarters for early lambing, Union County, ca. 1930
646. O.T. McWhorter, Extension Horticulturist, pruning a young cherry tree, Wasco County, ca. 1934
647. 4-H Club members assembled for crops judging demonstration, Criterion, ca. September 5, 1931
648. Two nurseries in Wasco County, ca. 1926. Purpose of these nurseries is to get information on the behavior of new and promising grain varieties being developed at the Moro and other experiment stations and to determine which grain varieties are most adaptable to Wasco county conditions. The picture shows ripe grain samples wrapped ready to take to Moro in Experiment Station car, D.C. Smith, third from left, is acting O.A.C. Farm Crops extension specialist
649. The Union Pacific railroad in cooperation with the Oregon Agricultural College ran a livestock demonstration train over its Eastern Oregon lines last April, 1926. Shown is the county agent driving the first prize six horse team at the Southern Idasco County Fair
650. Union Pacific Livestock Demonstration Train in 1926 in Wasco County, over 200 people passed through demonstration cars, inspecting charts and livestock at Maupin.

- The train was an hour late and a number left before the speaking started
- 651. The Dalles Public Market during construction in 1924
 - 652. The Dalles Public Market after completion in 1924
 - 653. Pig Club Judging Practice, Wasco County, ca. 1918
 - 654. Truck load of Shaniko Club at Tygli Valley Fair. Sheep, pigs, calves, and boys came 31 miles, Wasco County, ca. 1918
 - 655. Results of Dufur Colt Show, ca. 1918

Box 2 (P020:0657-P020:1254)

- 656. Bailey Gatzert Steamer which took Pig Club to Portland, ca. 1917
- 657. Farm Bureau Office (Courthouse) Corvallis, ca. 1919
- 658. Dairy and Beef Cattle Parade, Morrow County 4-H Club Fair, ca. 1938

- 659. Watermelon Feast
- 660. Reforestation by the 4-H in Hood River, ca. 1949
- 661. Harry Lindgren, Extension Animal Husbandman, judging 4-H steers at County Fair.
- 662. Dick Richards on the left with a Champion bull

- 663. 4-H float in front of the state capitol, Salem, ca. Sept. 27, 1952
- 664. Candlelight ceremony at 4-H Summer School
- 665. Making shoe racks, Coos County, ca. 1948
- 666. 4-H Pig Scramble, Morrow County, ca. 1953

- 667. Governor Pierce and 4-H Club Members, Columbia County, ca. 1924
- 668. Camp cookout at Northrup Creek
- 669. 4-H Dairy members inspecting grass range seeding at the Northrup Creek station
- 670. Pledge to the flag by 4-H at the Columbia County Fair, ca. 1938

- 671. Chariot racing at the Columbia County Fair, ca. 1936
- 672. 4-H members on first summer field tour in Coos and Curry Counties, ca. 1934
- 673. 4-H members leave Powers on railroad cars (Speeders) to visit ranches
- 674. 4-H trail ride, horses drinking, Gilliam County, ca. 1958
- 675. Carol Armstrong, Sherman County Home Agent, helping 4-11 member with project
- 676. Boys show coyote pups, ca. 1965
- 677. Boy with mole pelts, ca. 1917
- 678. County Agent, A.R. Chase and County Supt. C.T. Bonney with the Wasco County Canning Team, ca. 1917
- 679. Sheep in pens
- 680. Gully showing erosion, ca. 1935

- 681. Gully showing erosion, ca. 1935
- 682. Lambs
- 683. Lambs being loaded in railroad cars to go to market

684. Lambs in feed lot, Morrow County, ca. 1934
685. William L. Tentsch, Lake County, ca. 1919

686. Cars parked in grove while farmers meet, Lake County, ca. 1919
687. Filling silo with sunflowers, Lake County, ca. 1919
688. Prof. Powers, O.A.C. explaining helps for alfalfa to Lake County farmers
689. Lake County Exhibit at the State Fair, ca. 1920

690. Scattering poison bran bait for grasshoppers, Silver Lake bed, ca. 1920
691. Rabbits undermine haystack in Lake County, ca. 1921
692. Hauling dead rabbits away, Lake County, ca. 1921
693. Filling silo in Lake County, ca. 1921

694. Pump house well used for irrigation projects in Lake County, ca. 1921
695. Sheep shearing in Lakeview, Oregon, ca. 1926
696. Stacking wild hay, Lake County, ca. 1932
697. Stacking hay with overshot hay stacker, Lake County, ca. 1932

698. Combining oats in Lake County, ca. 1939
699. Vic Johnson, County Agent collecting scrap aluminum for WW II, Lake County
700. Bait spreader used in South Warner Valley, Lake County, ca. 1941

701. Power hay stacker, Lake County, ca. 1942
702. Fenced stock driveway, Lake County, ca. 1942
703. Hog dipping vat, Lake County, ca. 1942
704. Old Stevens Flume, Lake County, ca. 1941
705. A. R. Hyslop (with pipe), ca. 1942

706. Demonstration of a flame thrower as a weed controlling device, Malheur County, ca. 1946
707. Looking at weed control equipment, Malheur County, ca. 1946
708. Malheur County Exhibit at the State fair, ca. 1945
709. German Prisoners of War leaving Nyssa camp to work in beet fields, ca. 1945

710. German Prisoners of War thinning beets near Nyssa, ca. 1945
711. German Prisoners of War use self-propelled cart to help do work faster, ca. 1945
712. Mechanical beet loader, Malheur County, ca. 1946
713. Mechanical beet loader, Malheur County, ca. 1946

714. Weed sprayer, Malheur County, ca. 1945
715. Spraying willows in Vale, Malheur County, ca. 1946
716. Canal Spraying equipment, Malheur County, ca. 1946
717. Livestock yards in Ontario, Malheur County
718. Livestock yards in Ontario, Malheur County

719. Concrete lined ditch shows irrigation methods, near Adrian

720. Part of Malheur County potato crop used as livestock feed
721. Southwater Market in Chicago, Illinois
722. Malheur County potatoes are inspected in Chicago

723. Washington potatoes show packing done in Chicago
724. Harvesting strawberries, Malheur County, ca. 1947
725. Strawberries in crates, Malheur County, ca. 1947
726. Cutting hay, ca. 1923
727. Plowing, with horses

728. Flax pulling machine, ca. 1927
729. Threshing crimson clover, Washington County, ca. 1934
730. Crimson clover, cut and ready to be threshed, Washington County, ca. 1934
731. Threshing English Rye grass, Washington County, ca. 1934

732. Leveling land in Deschutes County, ca. 1945
733. Leveling land in Deschutes County, ca. 1945

734. Building a silo, making the hoops
735. Building a silo, making the hoops
736. Putting the slabs into the silo
737. Nailing the slabs into the silo
738. Getting ready to raise the silo
739. Placing ropes to silo to raise it
740. Raising the silo

741. Silo at St. Mary's School in Aloha, Oregon
742. O.T. McWhorter inspecting a crop, ca. 1931
743. Potato silage on ranch in Sisters
744. Brush plow shown in Lake County

745. Piles of round bales of alfalfa hay, Deschutes County, ca. 1946
746. E.L. Woods, Crook County Agent, Elizabeth Boeckli, Deschutes Home Demonstration Agent, and Mary Olive Snarr, Assistant State 4-H Club Leader at Sutter Lake
747. Lake Ochoco near Prineville, Oregon, ca. 1921
748. Harvesting barley, Crook County, ca. 1915

749. Redmond Potato Show in 1915
750. H.A. Sculler showing bee cultures
751. Horses in fenced area, ca. 1925
752. Cars parked in front of the Powell Butte Community Hall
753. H.E. Cosby giving an open poultry demonstration, Crook County, ca. 1921
754. Horse drawn tool for digging drainage ditches
755. The Crooked River
756. The Crooked River

- 757. The Warm Springs Indians show their "War Dance", Crook County
- 758. Train used in shipping sheep to market, Crook County
- 759. Haying in Crook County, getting load ready to stack, ca. 1921
- 760. Horse used in loading and stacking hay, putting hay on buck stacker, Crook County, ca. 1921

- 761. Horses lifting buck stacker, Crook County, ca. 1921
- 762. Dropping hay off the stacker, Crook County, ca. 1921
- 763. Horse shown with buck stacker and partial haystack, Crook County, ca. 1921

- 764. Haying in Crook County, showing the buck stacker, ca. 1926
- 765. The Buck stacker picks up a bunch of hay, Crook County, ca. 1926
- 766. The horses lift the load of hay to be stacked, Crook County, ca. 1926

- 767. The load of hay is moved to the stack and readied to dump, Crook County, ca. 1926
- 768. The hay is readied to dump, Crook County, ca. 1926
- 769. The load of hay is dumped, Crook County, ca. 1926
- 770. The horses back the stacker away from the haystack, Crook County, ca. 1926

- 771. The horses and stacker get ready for another load, Crook County, ca. 1926
- 772. Harvesting grain, 1934, tractor and machinery used
- 773. Another view of the harvester, ca. 1934
- 774. All purpose farm team, Powell Butte (Horses)
- 775. All purpose farm team, Powell Butte (Horses)

- 776. Draft horses
- 777. Team of Percheron horses, Prineville
- 778. F. L. Ballard, County Agent inspects field of alfalfa, ca. 1922
- 779. F. L. Ballard, County Agent inspects field, ca. 1922

- 780. Damage done by flood waters of the Crooked River, ca. 1935
- 781. Ochoco Irrigation Dam showing high water mark from the flood of the Crooked River, ca. 1935
- 782. Farm crew working at grading potatoes, Powell Butte, ca. 1935
- 783. Mt. Hood from Inspiration Point

- 784. Beaver
- 785. Man with beaver
- 786. The back of a beaver, showing his tail

- 787. Group of Japanese being evacuated from Hood River, 1942
- 788. Japanese family with luggage getting ready to board evacuation train, Hood River, 1942
- 789. Japanese boarding train to be evacuated, Hood River, 1942

- 790. Mexican farm workers just off the train, Hood River
- 791. Mexican farm workers pose

792. Mexican farm workers wait for registration
793. Mexican lined up and waiting for registration and assignment to farmers
794. Fred Pattison, dispatcher, and a new Mexican arrival
795. New Mexican arrivals pose

796. Registered and ready for work
797. Mexicans thinning fruit trees
798. Mexican picking cherries
799. Getting ready to eat lunch at 6:00 A.M.

800. Eating lunch
801. Cafeteria getting ready for dinner
802. Waiting in line for dinner, cafeteria style
803. Waiting in line for dinner, cafeteria style
804. Mail call, waiting for letters from home (Old Mexico)

805. Men in front of the rows of living quarters
806. Liquid manure being applied to pasture farm, Clatsop County, ca. 1939
807. Shepherders with the burro and dogs ready to leave for camp on higher ranges, ca. 1939

808. Pick-up hay chopper in use, Baker County
809. Chopped hay being dumped onto pile, Baker County
810. Manure loader in operation, Prineville
811. Picking up manure, Prineville
812. John Campbell setting up portable type of fireplace

813. John Campbell demonstrating the construction of slab fireplace
814. Men loading salvage in the Prineville, no print
815. Silo construction using metal forms and concrete, Deschutes County, ca. 1920

816. Deschutes certified potatoes, ca. 1920
817. H.E. Cosby giving a culling demonstration, Deschutes County
818. Train load of Alsike Clover Seed from Redmond, Oregon
819. Cattle drive

820. Hay derrick
821. Hay derrick with load
822. Hay derrick with fork type lift
823. Cooperation at Haying Time using horses

824. Home-made Buckrake pulled by horses
825. Home-made Buckrake
826. Cattle guard
827. Delivering turkeys for railroad shipment, cars in line, ca. 1929

- 828. Delivering turkeys to train station for shipment, ca. 1929
- 829. Ivan H. Loughring speaking and showing sire, Redmond
- 830. Ivan H. Loughring speaking to a group of cattlemen, Redmond
- 831. Paul V. Maris talks to visitors about dairy demonstration train, Redmond
- 832. P.M. Brandt talks to visitors demonstration trains, Redmond

- 833. Cattle on show in the demonstration train, Redmond
- 834. Visitors who visit exhibits on the demonstration train, Redmond
- 835. Headquarters for the Extension Service in Deschutes County

- 836. Holstein bull with conical covered corral in the background
- 837. Official Salvage Depot in Bend
- 838. Salvage collected in Bend
- 839. 1921 truck

- 840. 1919 Automobile with an ice-cream freezer on the running-board
- 841. George Hyslop certifying oats, ca. 1919
- 842. J.J. Inskip, County Agent, talks to farmer
- 843. Arthur King, soil specialist at Oregon State College, demonstrates how to build a flume, ca. 1930

- 844. Old Clackamas County Extension Agent office, ca. 1926
- 845. New Clackamas County Extension Agent office, ca. 1927
- 846. Man showing flax Clackamas County, ca. 1926
- 847. F.E. Price showing the effects of superphosphate on alfalfa, ca. 1926

- 848. F. E. Price showing the effects of lime on alfalfa, ca. 1926
- 849. Clearing land by blowing stumps, area to be cleared
- 850. The explosion to clear land of stumps
- 851. Piling up large pieces of wood to be burned to clear the land

- 852. Tractor (Catipillar) brings large stumps to be burned
- 853. One of the large stumps to be cleared away
- 854. Area after the explosion
- 855. Rows of hops
- 856. Harvesting oats, Clackamas County, ca. 1934

- 857. Grading potatoes, Clackamas County, ca. 1934
- 858. Domestic farm labor picking potatoes in Klamath County
- 859. Labor-saving potato harvester
- 860. Group loading busses for a day of strawberry picking, St. Helens

- 861. Group of black bean pickers near Scappoose
- 862. Group of workers (platoon) loading bus for work, ca. 1945

863. Two girls shown picking hops, Marion County
864. Oregon State co-eds loaded in truck ready for a days work of picking up filberts

865. Women's Land Army from Portland hoeing strawberries
866. Women's Land Army shown working in bean fields, Marion County
867. Women's Land Army picking peaches, Marion County
868. Women's Land Army worker picking up potatoes, Klamath County

869. Coburg Farm Labor Camp office, H.H. Plambeck, left, camp manager
870. Tent housing at the Coburg Farm Labor Camp
871. Camp Manager's quarters, camp office, and utility building at the Coburg Farm Labor Camp
872. Tent housing at the Coburg Farm Labor Camp
873. Tent housing at the Dalles Intrastate Labor Camp
874. Trailer house area, Malin Intrastate Labor Camp
875. Tent Housing at the Malin Intrastate Labor Camp

876. Utility building at the Malin Labor Camp
877. Nurse treating Mexican in trailer-dispensary at Athena Farm Labor Camp
878. Utility and office building at the Milton-Freewater Intrastate Labor Camp

879. Tent housing at the Milton-Freewater Intrastate Labor Camp
880. Laundry room at the Milton-Freewater Intrastate Labor Camp
881. Farm Labor Information Station, Junction City

882. Potato Combine, which handles potatoes in bulk, near Malin
883. Groups of worker loading in a truck ready for a days work at picking berries
884. Group of workers picking blackcaps on farm near Beavercreek

885. Two girls shown picking raspberries
886. Young boy shown picking red raspberries
887. Iris in bloom on a bulb farm of George Williams, ca. 1929
888. Visitors at a Dairy Train Demonstration in Seaside, ca. 1929
889. Clean barn where satisfactory milk is produced, ca. 1933

890. Dirty barn where only unsatisfactory milk is produced, ca. 1933
891. Tree Falling Contest, at Logger's Day at the Tillamook County Fair, ca. 1941
892. Men viewing an aphid catcher display, Benton County, ca. 1918

893. Farmers using Aphid catcher, Benton County, ca. 1918
894. Field demonstration visited during Itinerant County Agent Conference, Benton County, ca. 1918
895. Ernest Anderson viewing some seed

896. Wooden stave silo, Junction City
897. Braces on wooden silo, Junction City

- 898. Home-made bale conveyer on farm near Alsea
- 899. Home-made bale conveyer on farm near Alsea
- 900. Field of flax, Clackamas County

- 901-906 Preparing land for strip border irrigation, Clackamas County, ca. 1936
- 907. Cordwood, ca. 1939
- 908. Beaver creek Fire Wagon, Clackamas County, ca. 1942

- 909. Beaver creek unit having a fire drill, pumping water from a creek, Clackamas County, ca. 1942
- 910. Combine for grass seed, Clackamas County, ca. 1942
- 911. Erosion, Clackamas County, ca. 1940
- 912. Erosion, Clackamas County, ca. 1940
- 913. Farmer holding a very large sunflower

- 914. Row grass seeder, Clackamas County, ca. 1937
- 915. Overflow from a seed warehouse, Clackamas County, ca. 1942
- 916. Fiber flax, Clackamas County, ca. 1942
- 917. Completed Fair Grounds building, Tillamook County, ca. 1929

- 918. Dredger at work dyking, Tillamook County, ca. 1919
- 919. Building on the Tillamook County Fairgrounds, ca. 1925
- 920. Pile of stumps ready to burn for land clearing, Tillamook County, ca. 1927
- 921. Stumps after they have been burned for land clearing, Tillamook County, ca. 1927

- 922. Ambulance and volunteers of the Wasco County Ambulance Service
- 923. Quentin Zielinski, Oregon State Horticulture department, talks about peaches
- 924. Quentin Zielinski, Oregon State Horticulture department, talks about peaches

- 925. E.R. Jackson (left), Bill Cyrus (center), and Bill Hall (right) grade varieties of alfalfa
- 926. Bill Hall, E.R. Jackson, and Bill Cyrus grade alfalfa
- 927. Oregon Extension agents at the NACAA Convention in Salt Lake City: S.A. Jackson E.M. Hauser, Don Rasmussen, Oscar Mikesell, Gus Wood, Jack Wood, E.M. Nelson, N.C. Anderson, N. John Hansen, Fremont Sprowls, T.W. Thompson, Joe Myers, and William Parker

- 928. Dr. Albert S. Hunter, soil scientist, Oregon State College (left) and Clarence Niersinger of the Sherman Branch Experiment Station, ca. 1953
- 929. Brush plow with hydraulic lift , Mosier, ca. 1949
- 930. Brush plow with hydraulic lift demonstrated, Mosier, ca. 1949

- 931. Wheat storage, Wasco County, ca. 1949
- 932. Rotary hoe used for weeding wheat in the early spring, Wasco County, ca. 1950
- 933. Peaches being sorted and graded, The Dalles, ca. 1951 (Peach Warehouse)

934. Merrill Sather, seed certification specialist, Oregon State College, checks wheat
935. Robert Every, extension entomologist
936. Farm Labor Camp at The Dalles operated by the Fruit and Product League, ca. 1950, tent housing

937. Wheat barge being loaded, ca. 1950
938. Wheat being delivered to elevators, Wasco County, ca. 1958
939. Wheat harvesting with tractor and combine, Wasco County, ca. 1950
940. Aerial view of strip cropped wheat field, Wasco County

941. Migrant worker and his family
942. Grand entry of parade at the Wasco County Fair
943. Parade at attention, Wasco County Fair
944. County agent E.M. Nelson examining the wheat heads
945. M.M. Oveson, Superintendent of the Moro Experiment Station

946. Cabins in a labor camp
947. Trailer area of a labor camp
948. Cabins in a labor camp, built in 1946
949. Utility building in a farm labor camp, has toilets, showers and laundry

950. Mexican Nationals working on a pea viner, ca. 1945
951. School children who helped in the harvesting of the crops in 1944
952. Farm Labor Employment office in The Dalles
953. Mexican Nationals loaded in a truck ready to begin a days work at harvesting, ca. 1943

954. County equipment bull-dozing light metals which are uneconomical to handle
955. Men working to cover up the light metals which have no salvage worth for the war effort, Wasco County, ca. 1940
956. Sagebrush being removed by using a rotating beater, Sherman County, ca. 1952

957. Wheat harvest in Sherman County, ca. 1952
958. Highway damage caused by erosion, Sherman County, ca. 1943
959. Sherman County wheat elevator, ca. 1943
960. Flood method of eradicating sagebrush, dike in foreground permits control of water to kill out brush

961. Grasshopper baiting equipment
962. Spring development showing hollow-log storage
963. Irrigation dam, the highest earth dam in Oregon, fifty four inches high
964. Sage clearing demonstration, Harney County
965. Coyote, Harney County

966. Men working on Virgil Moon Reservoir, ca. 1952
967. Virgil Moon Reservoir largest earthen storage in the West, capacity 8500 acre feet

968. Water hole in Harney County
969. Marvin Young Reservoir, storage 325 acre feet
970. Beaver dam helps control bank erosion, Harney County 1940

971. A log trough and spring
972. Close up on a log trough and spring
973. Motor hay buck, Harney County 1941
974. Front view of the Montana or Beaver slide stacker, Harney County 1941

975. Side view of the Montana or Beaver slide stacker, Harney County 1941
976. Side view of the Montana or Beaver slide stacker at work, Harney County 1941
977. Stockwater hole in Harney County, ca. 1947
978. Concrete stockwater storage tank with, windmill, Harney County 1947

979. Stockwater hole in Harney County, ca. 1947
980. Stockwater hole that has a well at the bottom to produce an artesian flow, Harney County 1947
981. Cutting sunflower silage, wood silo in the background, ca. 1919
982. The Emigh creamery and cheese factory at Halfway, ca. 1923, buggies and cars in the background

983. Unity Public School, ca. 1919, people and cars in the foreground
984. Alfalfa weevil quarantine sign, Baker County 1923
985. Laws and Hale combine, Baker County 1923
986. Most popular type of combine used in Baker County, ca. 1923
987. Digging potatoes, Baker County 1924

988. Ground squirrel damage to a alfalfa field, ca. 1924
989. Squirrel damage in an alfalfa field, ca. 1924
990. Gopher damage to a potato field, ca. 1924
991. Alfalfa sprayer in operation, ca. 1924
992. Changing the tank of alfalfa spray, ca. 1924
993. Drilling a well, ca. 1929
994. Rotary rod weeder to control the Canada Thistle, Baker County 1932
995. Mobile trailer scales to weigh local cows and horses, Baker County 1934

996. Steer being weighed on the mobile trailer scaler Baker County, ca. 1934
997. Baker's first Baby Beef Day, 32 steers entered, ca. 1933
998. Owners showing their steers at the first Baker Baby Beef Day, ca. 1933

999. Barbecuing lamb at the Wool growers Picnic, Baker County 1941
1000. Shipment of silk and nylon hosiery by the Baker County Salvage Committee, ca. 1943
1001. Cow Boy Parade, Baker County 1938

1002. Cow Boy Breakfast, Baker County 1938

1003. Mormon Crickets heading eastward through culvert on Halfway Highway, ca. 1939
1004. Wheat field shows damage by Mormon Crickets, Baker County, ca. 1939

1005. Baker County extension Office staff, Philip T. Fortner County Agent, Secretary Margaret Teed, and assistant County Agent Hill, ca. 1940
1006. Barbecue at the Beef Cattle Field Day, Baker County, ca. 1940
1007. Eating at the Beef Cattle Field Day, Baker County, ca. 1940
1008. Pickup baling outfit, Baker County 1942

1009. Baling hay with modern equipment, Baker County, ca. 1942
1010. Flood damage and bank erosion on the Willamette River
1011. Flood damage caused by high waters in a hop field, ca. 1936
1012. Flood damage in a hop field, ca. 1936
1013. Land clearing with the use of a bull dozer, Benton County, ca. 1936

1014. Using a bull dozer to clear out logs, putting log on pile, Benton Ct, ca. 1936
1015. Bull dozer removes imbedded log, land clearing, Benton County, ca. 1936
1016. W.H. Malone, County Commissioner of Benton County, standing in the hole left after the imbedded log was removed by bull dozer

1017. Willamette River showing the bank erosion, ca. 1940

1019. Scrap metal collection day in Corvallis, Oregon, ca. 1942
1020. Boys whipping fiber flax, Corvallis

1021. Don C. Mote, head of Entomology Dept. holding a strawberry plant, ca. 1929
1022. Willamette Community and Grange Hall

1023. Power buck rake, ca. 1927
1024. Hay baler, ca. 1927
1025. Group of cars in a silo tour, Benton County 1920
1026. Group of people inspecting a silo on the silo tour, Benton County, ca. 1920

1027. County road, Benton County, ca. 1920
1028. The Alsea State Bank Benton County, ca. 1920
1029. Alsea Park, Benton County, ca. 1920
1030. Prof. Fitts of O.A.C. Speaks to a group of farmers on cattle breeding, Benton County 1920

1031. Alsea Farm Bureau Committee, from left to right, standing: W.J. Warfield, D.D. Longbottom, Ray L. Jenkins-Chairman, W.P. Shough, J.J. Hauser, Tom Warfield, J.W. Buster. Seater: J.H. Wilson, Mrs. W.J. Warfield, Mrs. J.H. Dorsey, and W.K. Taylor. Benton County, ca. 1920
1032. The Benton County Court. Left to right: R.C. VonLehe, Judge Wade Malone Clayton Herron, and E.J. Newton, County Clerk. ca. 1920

1033. The first ear-corn silo in Benton County, ca. 1919
1034. Southern Pacific Railroad Company crews, ca. 1918
1035. Kings Valley railroad station, ca. 1918
1036. The Siletz Prairie Cooperative Cheese Factory, ca. 1921
1037. E.R. Jackman, crop specialist, examining ladino field, ca. 1923

1038. Farm Crops Tour 1923. Crop specialist, E.R. Jackman explaining variety differences of oats to group of farmers
1039. E.R. Jackman pointing out mixture in field of bluestone wheat, ca. 1923
1040. Irrigation pipes on carrier
1041. Land clearing using a stump burner, burner shown
1042. The stump burner in action, used for land clearing
1043. A machine used to dig a drainage ditch, ca. 1922
1044. The ditch shown when about half done, It is very narrow, ca. 1922
1045. Group viewing the ocean, Lincoln County, ca. 1920
1046. Main street in Toledo, ca. 1920

1047. Main street in Toledo, ca. 1921
1048. Cheese Cooperative in Lincoln County, ca. 1922
1049. Team of boys with goat ready to shear, Lincoln County, ca. 1919
1050. Team of boys with goat after shearing, Lincoln County, ca. 1919

1051. Three generation of Siletz Indians, grandmother who is 111, daughter, and granddaughter, 1920, no print
1052. Group of cars and people at the dedication of the Clatskanie Creamery #5, Lower Columbia Cooperative Dairy Association, ca. 1929
1053. Coyote, Columbia County, ca. 1928
1054. First combine harvester in Columbia County, ca. 1927
1055. Group of people in front of a barn and silo, on the John Jacob Astor Expedition Station Tour

1056. Lexington grain warehouse, with part of the 1948 bumper wheat crop on the ground, Morrow County
1057. Archer-Daniels Midland warehouse at Ione with stockpile of wheat, ca. 1948
1058. Heppner warehouse with surplus wheat on the ground, Morrow County, ca. 1948

1059. Walnut dryer, ca. 1917
1060. Soldiers from the Pendleton Air Base helping load boxes of goods in cannery, helping the war cause, ca. 1942
1061. Women working to help save crop of peas, helping the war cause, ca. 1942
1062. Mexican workers loaded into trucks for a day of work in the fields, ca. 1942

1063. Working on a dry edible pea harvester, teacher sewing the sacks to help with the war cause, ca. 1942
1064. Mexican workers in the kitchens, ca. 1942
1065. Mexican workers working in the tomato patches, Milton-Freewater district, ca. 1942

1066. Mexican workers working on the pea viners, ca. 1942
1067. Worker shown with peas ready for canning, ca. 1942
1068. Camp health service center, ca. 1942
1069. Mexican workers washing and ironing clothes, ca. 1942
1070. Men playing guitars during their after work hours, ca. 1942
1071. Men playing poker during their after work hours, ca. 1942
1072. Crop duster
1073. O.T. McWhorter, extension horticulturist, talking to a group of fruit growers in Milton-Freewater, ca. 1929
1074. Group of members of the White Eagle Grange, ca. 1929
1075. Walter Hall discussing balances in production and marketing for wool
1076. Cooperative Cannery and Laundry, Umatilla County, ca. 1934
1077. Ford delivery truck loaded with wheat, Sherman County, ca. 1928
1078. R.S. Besse teaching in Farm Account School, Hermiston, ca. 1928
1079. Line of cars and wagons waiting to deliver turkeys to the Idaho pool, Hermiston, ca. 1929
1080. Line of cars and wagons waiting to deliver turkey to the Idaho pool, Hermiston, ca. 1929
1081. Cars used in advertising Umatilla Experiment Farm Field Day, ca. 1919
1082. Fred Bennion, County Agent, inspecting field, ca. 1922
1083. Gold Beach Chamber of Commerce float in the 1949 Lily Day Parade
1084. Lily grower in the Lily Day Parade, ca. 1949
1085. Annual 4-H Club Summer School, OSC, Corvallis 1952
1086. Candle lighting ceremony at the Annual 4-H Club Summer School, OSC, ca. 1952
1087. Extension Agent, Clive Cook inspecting a field
1088. Extension Agent, Clive Cook, showing the difference between good and diseased plant
1089. L.J. Allen talking to boys in livestock club
1090. Professor Carpenter demonstrating proper method of cutting a potato, ca. 1920, Lincoln County
1091. Extension School trip to Lincoln City, ca. 1919, on the boat
1092. Extension School trip to Lincoln City, ca. 1919, by truck
1093. Extension School trip to Lincoln City, ca. 1919, on a Ford jitney that ran on rails
1094. Fifty hunters gathered to kill rabbits for rodent control
1095. A group of hunters with dead rabbits, rodent control
1096. L.C. Scharpf shown with rabbit ears and the County Agent
1097. Farm pond, Clackamas County, ca. 1951
1098. Demonstration of a Forage Field Chopper, Clackamas County, ca. 1949
1099. Silage blower

1100. A temporary silo
1101. A low cost silo, hexagonal
1102. Dairy Herd Improvement Association's testing trailer, ca. 1950, Clackamas County

1103. Coyote caught in a trap, with the two men who set trap, predator control
1104. Man shown with bobcat he caught, predator control
1105. Harry O'Reilly talking to a farmer in the field, Clackamas County, ca. 1946

1106. Spraying prune trees, Clackamas County, ca. 1946
1107. Dr. Fore talking to corn growers, Clackamas County, ca. 1946
1108. Dr. John Nilbrath talking to potato growers, Clackamas County, ca. 1947
1109. Spraying field for weed eradication, Clackamas County, ca. 1945

1110. County Agent, Ron Davis, looks at a field of tansy, Clackamas County, ca. 1946
1111. J.R. McCambridge checking potato field, Clackamas County, ca. 1946
1112. Farmer shown with a Sub Clover mower, Clackamas County, ca. 1946

1113. Wallace Kadderly, KGW Farm Director interviewing farmers for "on the scene" radio broadcast, Clackamas County, ca. 1945
1114. Two combines harvesting a field of Crimson Clover, Clackamas County, ca. 1946
1115. J.R. McCambridge discussing with a farmer about ladino, Clackamas County, ca. 1945

1116. McCully Basin, Wallowa County, ca. 1942
1117. McCully Basin, Wallowa County, ca. 1942
1118. A flat warehouse in Wallowa County, ca. 1942
1119. Another view of flat warehouses in Wallowa County, ca. 1942

1120. View of the warehouse in Lostine, Wallowa County, ca. 1942
1121. Grain elevator in Joseph, Wallowa County, ca. 1942
1122. Warehouse in Joseph, Wallowa County, ca. 1942
1123. The main Enterprise warehouse, Wallowa County, ca. 1942
1124. Walt Strickler's machinery warehouse, Wallowa County, ca. 1942

1125. Cutting sunflowers and taking to cutters, Wallowa County
1126. Sunflowers being run through the cutter and packed into silo, Wallowa County
1127. Metal from scrap drive in Hood River, ca. 1941
1128. The Pinegrove scrap collection, ca. 1941

1129. Grange women who helped with the scrap drive in Pinegrove, ca. 1941
1130. Scrap being loaded that was collected in the Pinegrove scrap drive, ca. 1941
1131. Tractor pulling a row planter, with women planing lilies, ca. 1946

1132. Showing how the women plant the lily bulbs, ca. 1946
1133. The bottom view of the row planter, ca. 1946
1134. A potato digger converted into a lily bulb digger, ca. 1946

1135. The lily bulb digger, ca. 1946
1136. Flood erosion, Sherman County, ca. 1935

1137. Cooperative Grain Growers Elevator, Sherman County, ca. 1941
1138. Grass Valley Grain Growers Elevator at Kent, Sherman County, ca. 1941
1139. Grass Valley Grain Growers Elevator at Grass Valley, Sherman County, ca. 1941
1140. Grass Valley Grain Growers Elevator at Bourbon, Sherman County, ca. 1941

1141. Moro Grain Growers Elevator at Erskine, Sherman County, ca. 1941
1142. Moro Grain Growers Elevator at Moro, Sherman County, ca. 1941
1143. Moro Grain Growers Elevator at DeMoss, Sherman County, ca. 1941
1144. Moro Grain Growers Elevator at Hay Canyon, Sherman County, ca. 1941

1145. view of Sherman Co-Op Grain Growers at Ivasco, Sherman County, ca. 1941
1146. Sherman Co-Op Grain Growers at Klondike, ca. 1941
1147. A farm storage bin, Sherman County, ca. 1941
1148. View of farm storage in steel bins, Sherman County, ca. 1941
1149. Farm storage bin, Sherman County, ca. 1941
1150. Farm storage bin, Sherman County, ca. 1941

1151. Terracing of range land to hold run-off water, Sherman County, ca. 1935
1152. Prof. G.R. Hyslop speaking at a Wheat League Picnic in Moro, Sherman County, ca. 1937
1153. Cooperative buying of fuel in Sherman County, ca. 1919
1154. Men filling up oil drums, Sherman County, ca. 1919

1155. Mechanical cranberry picker, Clatsop County, ca. 1946
1156. Harvesting cranberries, first flooding the bog and then using the mechanical picker to knock the berries off the vines, Clatsop County, ca. 1946
1157. Newly planted bog of cranberries, Clatsop County, ca. 1946
1158. Scalping peat land for cranberries, Clatsop County, ca. 1946
1159. First mechanical picker tried in Clatsop County with cranberries, ca. 1946

1160. Area cleared by using goats for clearing land of brush, Columbia County, ca. 1930
1161. Potato harvest, Columbia County, ca. 1929
1162. Drag used to break fern on a fern control experimental area
1163. Burning fern on fern control experimental area

1164. Lincoln County Fair building in Newport
1165. Part of scrap collected at Toledo by the WPA crew from rural communities
1166. WPA truck and crew loading scrap at Toledo scrap pile
1167. Liquid manure spreader, Toledo, ca. 1937
1168. Emptying manure tank, Toledo, ca. 1937

1169. Harvesting operations of commercial garden peas for canning purposes, Scappoose
1170. Cucumber harvest at Scappoose, ca. 1935, Columbia County

1171. Harvesting a field of mint, Columbia County, ca. 1935
1172. Sheep on their way to range in Columbia County, ca. 1935

1173. Sheep on range in Columbia County, ca. 1935
1174. Sheep ranging on logged off land in Columbia County, abundance of forage, ca. 1935
1175. Stump burning demonstration done by the extension service
1176. Farmers who attend the stump burning demonstration
1177. Power driven potato digger

1178. Daffodil bulb digger
1179. Thousands of cans of beef stew, prepared in cooperation with the Red Cross to assist in relief work, ca. 1932
1180. Stock pile of rubber gathered on rubber drive in 1942

1181. R. Ralph Clark inspects strawberry field
1182. Rex Warren being presented with honorary membership in South 40 Club, Yamhill County, ca. 1947
1183. Sweet corn picking machine, Yamhill County, ca. 1947
1184. Diesel powered tiller, Yamhill County, ca. 1947

1185. Filbert picking machine, Yamhill County, ca. 1947
1186. Farmers attend Harvest Equipment Field Day, Yamhill County, ca. 1946
1187. Fox field cutter, Yamhill County, ca. 1946
1188. Demonstration of filbert harvester, Yamhill County, ca. 1943

1189. Filbert Harvester, Yamhill County, ca. 1943
1190. Horses for the Army, Whetler County, ca. 1916
1191. Schoolhouse, Wheeler County, ca. 1916
1192. Liquid manure tank, Yamhill County, ca. 1939
1193. Building a wooden silo, Yamhill county, ca. 1939

1194. Double silos, Yamhill County, ca. 1939
1195. Snow fence silo that is good as a temporary silo, Yamhill County, ca. 1939
1196. Concrete silo, Yamhill County, ca. 1939
1197. Group waiting to leave for bean fields, Yamhill County, ca. 1946

1198. Group at work picking beans, Yamhill County, ca. 1946
1199. Field boss and platoon leaders for the bean harvest, Yamhill County, ca. 1946
1200. Group in field picking, Yamhill County, ca. 1946
1201. Boys taking full bags of beans up to be weighed, Yamhill County, ca. 1939
1202. Two girls picking on a row of beans, Yamhill County, ca. 1946

1203. Mexican bean picker, Yamhill County, ca. 1946
1204. Mexican bean picker weighing his full bag of beans, Yamhill County, ca. 1946
1205. Mexican farm worker picking in potato field, Yamhill County, ca. 1946

1206. Mexican farm workers help harvest potatoes, Yamhill County, ca. 1946
1207. Mexicans work for growers piling flax, Yamhill County, ca. 1946
1208. Mexicans in flax field, Yamhill County, ca. 1946

1209. Left to Right: Rex Warren, County Agent; Frank Brown, Harry Lindgren, Extension Animal Husbandman; Ben Rodenwold, Beef Management Professor, Oregon State, ca. 1936
1210. J.R. Beck inspecting prune tree in orchard, Yamhill County

1211. Silo with concrete pit, Yamhill County, ca. 1916
1212. Moldy spots on the inside of a silo wall, Yamhill County, ca. 1916
1213. Silo demonstration and also some cattle shown, Yamhill County, ca. 1916
1214. Silo Demonstration Tour, Yamhill, County, 1916 old cars in front
1215. S.T. White, county agent

1216. Dr. D.C. Mote, in a ladino field where it had not been sprayed with grass control Jackson County
1217. Dr. D.C. Mote, standing in same ladino field after it has been sprayed for grass control, Jackson County
1218. Custom farming, showing the combines and trucks used, Gilliam County, ca. 1964

1219. Dr. Norm Goetze, Extension Crop Specialist, reads a paper that is resting on the top of wheat, Gilliam County, ca. 1965
1220. Harvesting wheat, Gilliam County, ca. 1965
1221. Harvesting safflower, Gilliam County, ca. 1965
1222. Dillard Gates, Extension Range Specialist, inspects Sherman Bib Blue Grass Gilliam County, ca. 1965

1223. Nine past winners of the Farmer of the Year award in Gilliam County, ca. 1965, Left to right, back row: Earl Butler, 1950; Marion Weatherford, 1956; Harold Hartfield, 1957; Walter Jaeger, 1958; Floyd Anderson, 1959; Front row: Van Rietmann, 1960; Howard Eubanks, 1961; David Childs, 1964; Lee Pettyjohn, 1962.

1224. Sherman Branch Experiment Station combine, Gilliam County, ca. 1962
1225. Flood damage to road during December, ca. 1964, Gilliam County
1226. Flood damage to a store in Olex, neighbors help clean up the mess, Gilliam County

1227. Flood damage done to a field near the creek that overflowed, Gilliam County, ca. 1964, Lou Gilliam on the far right
1228. Flood damage done to a field, silt deposited on alfalfa field, Gilliam County
1229. Caterpillar tractor that ingenious farmer built cab extension on the get up out of the dust and give him a quieter ride, Gilliam County, ca. 1957

1230. SCS Technician, Lou Gilliam, and Oregon State Highway Agronomist, Jens Svinth, inspect crested wheatgrass planted along State Highway 206, Gilliam County, ca. 1957

- 1231. Extension Specialist Marvin Shearer, sprays weed control into farm pond, ca. 1957
- 1232. Howard Cushman, Extension Soil Specialist, installs a moisture meter in field, first such equipment in Gilliam County, ca. 1957
- 1233. Howard Cushman showing wheat that used Nitrogen and some that didn't, Gilliam County, ca. 1952
- 1234. Art King, Extension Soil Conversation Specialist talks to farmer about using trashy fallow to help control erosion, Gilliam County, ca. 1947
- 1235. Homemade "Jeep" with a bait spreader attached, Gilliam County, ca. 1940
- 1236. Condon Grain Crowers Co-Op Elevator in Condon, Gilliam County, ca. 1947
- 1237. Charles Ross, extension forester, explains use of pine posts to farmers, ca. 1949
- 1238. Survey of Summerfallow field near Condon, Gilliam County, ca. 1934
- 1239. Measuring wheel with a simple revolution counter, Gilliam County, ca. 1934
- 1240. 4-H boys showing cattle at Willamette County Fair, ca. 1953
- 1241. Threshing barley with a self-propelled combine, Washington County, ca. 1952
- 1242. Hand picking prunes, Washington County, ca. 1949
- 1243. Prune catching frames on farm near the Chehalis Mountain, Washington County, ca. 1949
- 1244. Prune grader and cleaner, Washington County, ca. 1949
- 1245. Prune grader and cleaner at work, Washington County, ca. 1949
- 1246. Prune grader and cleaner at work, Washington County, ca. 1949
- 1247. Two steel silos, Washington County, ca. 1946
- 1248. Demonstration of a field chopper harvesting grass and legume silage, Washington County, ca. 1946
- 1249. The face of Rock Creek Dam that was completed in 1939 as a WPA project, Wasco Ct.
- 1250. Burning a field of straw, Wasco County, ca. 1940
- 1251. School bus loaded with children to help in harvesting crops, Wasco County, ca. 1943
- 1252. Wasco County firetruck, ca. 1943, Farm fire prevention
- 1253. Bentgrass field that typified Marion County's seed industry, ca. 1952
- 1254. Spraying a red raspberry field, Washington County, ca. 1950

Box 3 (P020:1255-P020:1750)

- 1255. Picking up grass and making silage of it, Marion County, ca. 1950
- 1256. Vacuum pickup to help pickup seeds, Marion County, ca. 1944
- 1257. Picking strawberries, Marion County, ca. 1944
- 1258. State House employees help bring in harvest from the fields, Marion County, ca. 1941
- 1259. Housewives and kids help with bring in the harvest, Marion County, ca. 1941
- 1260. Soldiers help to pick cherries, Marion County, ca. 1941

1261. Girl picking beans, brought her own wagon to carry them, Marion County, ca. 1941
1262. Boy picking beans, Marion County, ca. 1941
1263. Two boys standing by their full bags of beans, Marion County, ca. 1941
1264. Weighing bags of beans, Marion County, ca. 1941
1265. Man picking strawberries the hard way, Marion County, ca. 1941
1266. Group of girls ready for lunch, Marion County, ca. 1941

1267. Group of boys enjoying their lunch, Marion County, ca. 1941
1268. Group in truck ready to go home after hard day of work, Marion County, ca. 1941
1269. Women picking strawberries, Marion County, ca. 1941
1270. Boy eating strawberry, hard to resist when picking, Marion County, ca. 1941

1271. Lady who can pick 500 pounds of beans in one day, Marion County, ca. 1941
1272. Man averages 11 dollars a day picking cherries, Marion County, ca. 1941
1273. Harvesting Subterranean clover with a sheep skin covered roller, Marion County

1274. The burrs scrape off into the hopper when harvesting clover, Marion County, ca. 1941
1275. Bags of burrs ready for threshing, Marion County, ca. 1941
1276. Farm fire protection, a row is plowed between the road and field in case someone traveling on the road would throw a cigarette and cause a fire in the field, rows called fire guards, Marion County, ca. 1941

1277. Another fire guard shown up close, Marion County, ca. 1941
1278. Make shift fire truck to help in field fires, holds a tank of 500 gallons of water and has a pump that can be used in a pond or stream, Marion County, ca. 1941
1279. Large bell that is used as general alarm system since there are few phones, Marion County, ca. 1941

1280. Art King setting off several explosion with a battery
1281. Speaker's table at the Marion County Farmer-Merchant Banquet; 1939. Seated left to right: W.L. Teutsch, Harry L. Riches, Earl Snell, Governor Charles A. Sprague, Albert Girod, Douglas McKay, and W.M. Tate.

1282. US Post office building where the Marion County Agricultural Agent's Offices are located, capital dome in the background, Salem
1283. US Post office building where the Marion County Extension Office is located, Salem
1284. Farm exhibit at the North Howell Grange Fair, ca. 1935, Marion County

1285. Federal Building in Salem where the Marion County Extension Office is located, ca. 1935
1286. Extension staff in Marion County, ca. 1935. From left to right: J.W. Deremiah, Dorothy Miller, Georgia Ramage, Vera Leabo, Helen Boardman, and Harry L. Riches, County Agricultural Agent
1287. Bank erosion along the South Santiam River, Linn County
1288. Field erosion from river flowing over its bank, Linn County
1289. Field erosion from the river overflowing its bank, Linn County

1290. Deposits of soil that was washed from the fields, Linn County
1291. Type of dike constructed to keep rivers and streams in their channels, Linn Ct.
1292. Type of bank protection constructed along the creeks and rivers, Linn County

1293. Exterior view of the Linn County 4-H Club Fair Building, near Albany, ca. 1947
1294. Perennial ryegrass seeds drawn for certification, Seed certification program
1295. Analysis by experts at the Federal Cooperative Seed Lab at OUC

1296. Lady producing certification tags in the Seed Certification office at OSC
1297. Men attaching tags to bags of seeds to be shipped to the east coast
1298. Channel of Beaver Creek before work was done on it, before checked by brush, bars, and beaver dams

1299. A bull dozer and class shell used in working on Beaver Creek
1300. Portion of the finished channel of Beaver Creek
1301. D.D. Hill inspecting a clover field
1302. Cut field of chewing fescue, Linn County, 1939, used for grass seed

1303. Farmer working with chewing fescue as one does hay, this results in shattering the seeds, Linn County, ca. 1939, no print
1304. Dusting equipment that is mounted on trucks, the dust is forced into a hood this assures even coverage of crops, Linn County, ca. 1937
1305. Side view of the dusting equipment, Linn County, ca. 1937

1306. dusting equipment in use
1307. Beaver Creek Project, Driftwood is burned and blasted because it obstructs good drainage, WPA does most of the labor, ca. 1936
1308. Teams of horses used to remove stumps and roots, Beaver Creek Project, ca. 1936

1309. Sixteen inches of snow on January 31st causes traffic problems and damage to fruit
1310. Ice on the Willamette River, near Albany, ca. 1936, Linn County
1311. Snow covering on trees, ca. 1934, Linn County
1312. Presbyterian Church, Albany, ca. 1921, Linn County
1313. Riverside Community Hall, Linn County, ca. 1922
1314. Poultry culling demonstration given by Prof. C.S. Brewster of OAC, Linn County, ca. 1919
1315. Dr. L.R. Vawter of OSC Diagnostic Lab tell farmers of his program, ca. 1953

1316. Road equipment working on flood control for the South Santiam River, ca. 1953
1317. John Landers, livestock specialist at OSC, demonstrates the spraying of sheep
1318. Oscar liagg, milk marketing specialist, speaks to Albany Kiwanis

1319. Board of directors at the second Annual All-Breed Dairy Show; seated left to right, Ted Sidor, assistant extension agent; Walter Shelby; and George Chandler. Standing left to right, R.G. Stearns and Jim Ruby, Linn County, ca. 1953

1320. Tom Jackson, soil conservation specialist at OSC, Discussed results of fertilizer with farmers, Linn County, ca. 1953
1321. Fertilizer spreader, Linn County, ca. 1953
1322. Fertilizer spreader, Linn County, ca. 1953
1323. Predator Control, trunk load of bobcats and hunters, Coos County, ca. 1939
1324. Hunters holding dead bobcats, Predator Control, Coos County, ca. 1939
1325. Screening and grinding shell at Empire for use as agricultural lime, ca. 1934
1326. Grinding shell equipment, elevator, revolving screen, mill, and motor, ca. 1934
1327. Equipment used for grinding shell, power for running equipment from a tractor, ca. 1935
1328. Equipment used for grinding shell, Coos County, ca. 1935
1329. Plane used for seeding, Coos County, ca. 1936.
1330. R.L. Clark and Harry Lindgren examine grass on Coos County Sheep Company range, ca. 1937
1331. Predator Control, dead nine foot cougar, Coos County, ca. 1939
1332. Dead cougar posed on lawn, Predator Control, Coos County, ca. 1939
1333. Phillip Barlett receiving award as best dairy showman, ca. 1938
1334. Crew driving stakes into a pea field, Coos County, ca. 1931
1335. Field after all the stakes are driven, Coos County, ca. 1931
1336. Packing peas for shipment east, at the Southern Pacific Depot in Coquille, Coos County, ca. 1931
1337. Flood damage near Coquille, Coos County, ca. 1925
1338. View of the Coquille Valley with creek running through it, Coos County, ca. 1925
1339. Coquille River, Coos County, ca. 1925
1340. Bank of the Coquille River, Coos County, ca. 1925
1341. farm by the Coquille River, Coos County, ca. 1929
1342. Drying corn for seed, Coos County, ca. 1916
1343. Andy Landforce, wildlife management specialist, speaking to group of kids about underwater life, Columbia County, ca. 1957
1344. Control of tansy ragwort a poisonous weed, Columbia County, ca. 1957
1345. Farm fish pond, stocked with fish, Columbia County, ca. 1957
1346. Columbia County Timber Harvest Demonstration, ca. 1949
- 1347-8. Kentuck Inlet (Slough) 1920, Coos-Curry County
1349. Douglas Fir tree, 15" from top to stump, sawed 500 boards feet. 50 years old, Forestry exhibit County fair, exhibit sponsored by Farm Forestry Committee, Agricultural Planning council, ca. 1949
1350. Timber Harvest Demonstration Sign, Columbia County, fairgrounds
1351. Logging camp in Columbia City, one of last. Clark-Wilson Lumber company, ca.

- 1945
- 1352 Second growth Douglas fir, Columbia County farm woodland, ca. 1945.
- 1353 Buck rake mounted on old truck. Wm. Pringlells farm near Vernonia, Columbia city, ca. 1943
- 1354 Irrigation Project, Mr. & Mrs. Ward Farrell, Gateway OR. First signed this type of agreement to sell excess land at appraised valuation, Jefferson City, ca. 1938
- 1355 "Scrappo" Mechanical scrap metal harvest creation of county Salvage Committee Salem, OR, ca. 1941-42
- 1356 Jake Sonner of the Salvage Committee.unloading scrap metal, ca. 1941-42
- 1357 Beaver Falls, scenic spots in Columbia County
- 1358 237 foot natural Douglas fir flag pole, grew in the Beaver Creek school yard. Possibly the tallest natural flag pole in the world
- 1359 "The Blue Ox" used for logging in Columbia County. Mr. Pomeroy of Rainier, OR, ca. 1937
- 1360 Modern skidder, latest type used by Clark-Wilson Lumber Co. for yarding logs and loading on to trucks.
- 1361-2 WWII, observation post at Yankton, Columbia City.
- 1363 Seed flax being harvested on the Delta Farms at Scappoose. Over 500 acres of seed flax was grown in Columbia County.
- 1364 Wasco County Court House, The Dalles, OR, ca. 1917
- 1365 Dufur Valley, Wasco County, ca. 1926
- 1366 Timber growth exhibit amount of timber grown on 10 acres, total in one year.
- 1367 Orchard removal.
- 1368 Farm tour, Wasco City, ca. 1922.
- 1369 Storage Tanks, ca. 1956
- 1370 Ferry on Sauvies Island, ca. 1948.
- 1371 Bulldozed off a road on Sauvies Island following 1948 Columbia River flood.
- 1372 View of sand covered road & garden on Sauvies Island following 1948 flood Columbia River.
- 1373 House showing high water mark from flood 1948 Columbia River.
- 1374 Wasco County Agricultural Council of Defense, ca. 1951
- 1375-6 Mohn Raspberry picker, still needs considerable work before its entirely successful, Multnomah County, ca. 1951
- 1377 Erosion, Gully in field of winter wheat just north of Cayuse, ca. 1953
- 1378-9 Cultivated ground without protection, subject to heavy winter erosion.
- 1380 Wheat crop near Echo and Butter Creek, ca. 1953
- 1381 Farm labor employment office.

- 1382 Coburg Farm Labor Camp office.
- 1383 Umatilla County Extension Agent Staff, ca. 1954.
- 1384 One of the first dike construction on the Multnomah Drainage District No.1
- 1385 Sodded water way, Umatilla County, ca. 1953
- 1386 Roto Beater, busting mulch stubble on George Woodward farm in Helix District, ca. 1954
- 1387 401, Swath Combine, county Extension agents, Gene Winters, Reed Day, Dr. Cleveland J. Gerard.
- 1388-9 Mechanical Tree Shaker
- 1390-1 Bears, shot by Russell Daulton assistant County Agent
- 1392 2 4-D use demonstration on Morning Glory, Rose Briers, and Canadian Thistles
- 1393 Hop Yard
- 1394-5 Homemade Wood Stove Silo Construction
- 1396 Finished Wood Stove Silo
- 1397 Pneumatic Pruner
- 1398 Wind Erosion
- 1399 Rabbits, 4-H club 1949 Polk County Fair
- 1400 Horsemanship, 1949 Polk County Fair
- 1401 Dragline on Salt Creek Drainage Project, ca. 1951
- 1402 Dragline on Ash Creek Drainage Project, ca. 1951
- 1403-4 Carry-Alls on Ash Swale Drainage Project, ca. 1951
- 1405 Willamette Basin Project, Cottage Grove Reservoir
- 1406 Willamette Basin Project, Ash Creek
- 1407 Willamette Basin Project, Salt Creek
- 1408 Willamette Basin Project, Ash Swale
- 1409 Polk County Fair, 4-H Livestock Barn, ca. 1951
- 1410 4-H Sheep Club, John M. Evey, Extension Agent
- 1411 Luncheon for County wide 4-H Achievement Day, ca. 1952
- 1412 Parade in Dalles, 4-H club, ca. 1952
- 1413 Burton Hutton, State 4-H Leader, Banquet
- 1414 Rabbit Drives, Morrow County, ca. 1922
- 1415 Tug-of-War, ca. 1922
- 1416 Farm Town, Morrow County, ca. 1921
- 1417 Harvester-Horse drawn, ca. 1920
- 1418 Wheat Harvesting, ca. 1920
- 1419 Weeder, Horse drawn, Morrow County, ca. 1920

1420 Wool Hauling, Morrow County, ca. 1921
 1421 Harvesting, Turkey Red Wheat

 1422-3 Erosion Gully
 1424 Buncle Grass
 1425-6 Water Erosion
 1427 Sulky Rake, Lake County, ca. 1943

 1428-9 Wind Erosion
 1430 Artesian Well
 1431 Mr. Jamison Extension Dairy Specialist, holding Mangels, ca. 1922
 1432 LeRoy Warner Head of Soils Service Division 1952, taking soil samples

 1433 Quarter Horse, Umatilla County
 1434 Nomad Alfalfa
 1435 Sacks of Certified Elmar Wheat, ca. 1952
 1436-7 Pea Vines being spread on farm land
 1438-9 Pea vines being fed to cows

 1440 4-H group summer school bus
 1441-2 4-H summer camp
 1443-4 4-H summer camp swimming hole
 1445 Rockland Tiller, ca. 1951

 1446 Luff Hitch is Demonstrated, used as a stump puller
 1447 Paul Bunyan Hammer
 1448-52 Land Clearing, used Pyrotol
 1453-7 Blasting Materials & Demonstration

 1458-9 Irrigation pipe galvanized 4" gates 51 apart, pressure 10 lbs., fan spray, ca. 1935
 1460-1 Land leveling by uses of the drag
 1462 Revolving sprinklers connected directly to portable pipe 35 lbs. pressure

 1463-4 Orchard removal, result of winter injuries, ca. 1949
 1465 Installing a one wire electric fence
 1466-7 Electricity exhibit, showing on a meter the cost of operating appliances
 1468-9 Irrigation sprinkler system, Pole beans, ca. 1937

 1470-1 Irrigation sprinkler system, Filberts & Walnut Crops, ca. 1937
 1472-3 Irrigation Pipe (couplers), ca. 1937
 1474-5 Electricity exhibit, showing cost on meter of appliance use
 1476-7 Hydro-electric plant near Triangle Lake

 1478 Poultry House
 1479-80 Lighting exhibit

- 1481 Flooded Land , Need for Drainage District No.1, ca. 1921
1482 Outlet Ditch use to Drain flooded lands, ca. 1922
- 1483 5,000 gallon concrete reservoir for West Rainier Water Ass., Gravity system utilizing a spring nearby, ca. 1938
1484 Installation of septic tank, developed in 1938 for distribution
1485 Improperly designed fixtures, ca. 1937
- 1486 Approved type of fighting fixture, ca. 1937
1487 Harsh bare lamps, Improper lighting, ca. 1937
1488-9 Stump burning unit, ca. 1938
1490 A cyclone silo, ca. 1919
- 1491 Land clearing with Pyrotol, ca. 1926
1492-3 Coburg farm Labor Camp
1494-5 Coburg Farm Labor Camp Residents
1496-7 Bean Picking & Weighing
- 1498 Bean field-weighing
1499 Bean field-lunchtime
1500 Bean picking crews assembling for transport to fields, Farm Labor WWII
- 1501 Youth bean pickers crew on way to field
1502-3 Cucumber picking
1504-5 Farm Labor camp
1506 1940 Harvesting cannery beets with mechanical puller
- 1507 Bean field
1508 1930 Nillet-Japanese
1509 Low pressure perforated irrigation pipe
1510 Power & pumping lay out for irrigation system
1511 Junction City Fat Lamb show, ca. 1939
- 1512-17 A forced draft stump burning demonstration, ca. 1939
1518 Cereal plots, professor G.R. Hyslop
1519 1937 Economical irrigation system pumping plant
1520 Economical irrigation system canvas main hose, ca. 1937
1521 Economical irrigation system diversion of water to rows, ca. 1937
1522 Economical irrigation system water in rows of parsnips, ca. 1937
1523 Thistledown Farm Barns, ca. 1935
1524 1935 Dairy herd, grazing on red clover pasture.
1525 Arther S. King (white shirt) 1935, motor & pump, for revolving sprinkler system.
Spring Irrigation Tour
- 1526 Spring Irrigation Tour, Weil House

- 1527 Harvesting Beets, Lane County, ca. 1933
- 1528 4-11 Lamb project, Baker County, ca. 1945
- 1529-30 AAA Community Irrigation Project, dam wooden structures replaced with concrete.
- 1531 AAA Community Irrigation Project, carrying water from dam to it's Cooperators.
- 1532 Cutting of Alfalfa Hay
- 1533 Irrigated grain field, Josephine County, ca. 1944
- 1534 Vett crop-waist high from additional irrigation.
- 1535 Josephine County, Onion field for seed
- 1536 Professor Herman A. Scullen- "Sweeping for Bees"
- 1537 A portable Hop Picking Machine
- 1538 Milking Parlor Grade A Milk
- 1539-40 4-H summer camp Rand
- 1541 Irrigation Dam on Illinois River Josephine County, ca. 1945
- 1542 Head-gate at Johnson Dam on Illinois River Josephine County, ca. 1945
- 1543 Hop fields
- 1544 Hand picking of Hops
- 1545 Harvesting hops by portable machine
- 1546 1919 Train unloading "Simplex" silos, Junction city
- 1547 Chickens Lane County, ca. 1919
- 1548 Typical farm house, Lane County, ca. 1920
- 1549 Soil Conservation, Blasting drainage ditch, Baler County, ca. 1944
- 1550 Nutrition Demonstration, for mother and infants, Coos County
- 1551 Training school, project on salad dressing making, Wasco County
- 1552 Cleaning wheat, preparation for grinding and cooking, Lane County, ca. 1932
- 1553 Child Nutrition Clinic, ca. 1919 Benton County
- 1554 Serving Hot Lunch, ca. 1915 Benton County School
- 1555 Drying fruit in a home made dehydrator, ca. 1919 Corvallis
- 1556-57 Cattle grazing scene, Union County
- 1558 A Heifer, ca. 1948
- 1559 Registered Hereford cows, ca. 1948
- 1560 Well drilled late 1949, Artesion water
- 1561 Preparing grass sod for seeding of grain, ca. 1949
- 1562 Mechanical grass seed bundle unloader
- 1563-4 Edson McCause, constructed this hay stacker out of an Army "Duck", winches & pulleys, which are used to contrite the derrick
- 1565 Concrete silo 14' by 40' Union County
- 1566 Wheat land, Union County, ca. 1947

- 1567 Livestock Ranch, Oliver Bros., Grant County
- 1568 Corrals, Livestock Ranch, Grant County
- 1569 Motorized hay stacker

- 1570 Pit silo, Union County
- 1571 Preparation for a pit silo
- 1572 Pit silo, Union County
- 1573 Pit silo, full of silage

- 1574 Silage operation, Union County, ca. 1952
- 1575-76 Rock Rake
- 1577 Self-propelled combine, adapted for grass seed threshing by adding hood, conveyer and bundle cutting attachment, Union County
- 1578 Green Pea Canning enterprize, Union County, ca. 1945
- 1579 Grande Ronde Valley, good area for high quality seed crops
- 1580-81 Farm Machinery 1944 Union County "Seed Planter"
- 1582 Sheep drive, Union County, ca. 1944
- 1583 Baled Hay, Union County, ca. 1944

- 1584 Bulk Pea loading, Union County, ca. 1944
- 1585 Soil Conservation, Union County, ca. 1944
- 1586 Erosion one winters effect on wheat field
- 1587 Grass seeding, burnt out trees, Baker County
- 1588-89 Planting grass, burnt trees, Baker County

- 1590 Coastland, logged, burned and seeded, ca. 1940
- 1591 Cut over and burned over land, should be seeded to control fire hazard, ca. 1939
- 1592 Disc Tiller plowing in stubbled land
- 1593 Wheat grass planted in rows, Gillian County
- 1594 Combining crested wheat, Gillian County

- 1595-96 Harvesting Ladino Clover, farm machinery, Josephine County
- 1597 Lawrence Jenkins field inspection in Ladino Clover
- 1598 Sealing and Tagging Ladino Clover
- 1599-1600 Over grazing on right side

- 1601 Threshing scene on crested wheat grass crop, ca. 1935, Union County
- 1602-3 Threshing Grimm Alfalfa seed Union County, ca. 1935
- 1604 Threshing crested wheat grass with combine, this method not satisfactory, ca. 1935
- 1605 Self rake reaper used to cut alfalfa for seed, ca. 1935
- 1606 Threshing Alfalfa with combine, ca. 1935
- 1607 Potatoes for seed
- 1608 E.R. Jackman, ca. 1931, potatoes for seed

- 1609 Dusting clover for mildew control, Crook County

- 1610 Pit of Netted Gems potatoes, Crook County, ca. 1930
1611 Harvesting Vetch plot, Clatsop County
1612 Grimm Alfalfa, Washington County
1613 R.W. Morse, County Agent, wheat
- 1614 Combine with header at the end, Wheat
1615 28 ft. wooden weeder
1616 Vintage Car
1617 F.L. Ballard, County agent
- 1618 Union County, Wheat
1619 Dry Treating Wheat Process, Umatilla County, ca. 1923
1620 Threshing Alfalfa seed Deschutes County, ca. 1923
1621 Grimm Alfalfa, Washington County, ca. 1923
1622 Tile ditching demonstration, Drainage Project Report, ca. 1916
- 1623 Murry Dawson, 4-H camp Elkanah, talk on soil.
1624 Merrill Oveson, white winter wheat sacked.
1625 Earl E. Brown shows Alkali Bee Bed No.1, Umatilla County
1626 Clover, Clatsop County, ca. 1923
1627 Lois Sather, food research meeting, ca. 1958
- 1628 Lois Sather, testing meat.
1629 Jack Waud, Omar wheat, ca. 1958
1630 Planting tomato plants with a two row planter machine, ca. 1957
1631 1914 State Fair encampment of club members
- 1632 Threshing sugar beet seed.
1633 View of a Victory Garden, ca. 1942
1634 Establishing an Alkali Bee colony water trenches made to supply the moisture needed.
1635 Alfalfa Hay, loading bails on truck, ca. 1957
- 1636 John Landers, 1956 Minnesota #1 Hogs
1637 John Landers Jr., 1956 Calves feeding on straw.
1638 Merrill Oveson 1956, winter wheat "Elmar"
1639 Dorothy Sherrill & John Landers Jr., meat cutting & wrapping demonstration 1955
- 1640 Dr. Chas Rohde, Omar wheat, ca. 1955
1641 Dr. G. Burton Wood, ca. 1954
1642 Vic Johnson, Emsley Rogers, identifying ragweed near Umatilla
1643 Rambouillet Rams, ca. 1951
- 1644 Wind break Planting, ca. 1951
1645 Weed Sprayer, ca. 1951

- 1646 Baling Alta Fescue grass, ca. 1951
1647 Harvesting Alta Fescue grass, ca. 1951
1648 Loading Sacked Alta Fescue grass seed, ca. 1951
- 1649 Toxaphene-bran dry bait used in the Mormon Cricket Battle
1650 European Beach grass plantings.
1651 European Beach grass plantings one year later than #1650
1652 1950 Russian thistle, Westland sand.
1653 Chinese Elm injured by 2,4-D, Rex Warren, Weed control Chemicals
- 1654 Norton Taylor, 2,4-D injured leaves of Norway Maple trees
1655 Pea vine spreader, machinery
1656 "Grass Seeder" machinery
1657 Front view of green pea combine
1658 Rear view of green pea combine
1659 Green pea combine, ca. 1950
1660 Row grass "Seeder", wheat grass, machinery
1661 Row grass "Seeder", machinery
1662 "Weed Sprayer" machinery, ca. 1950
- 1663 filling "Seeder" with stiff hair wheat grass seeds.
1664 Brillon Seeder, ca. 1950
1665 Mormon Cricket infestation
1666 H.P. Fwalt, Holstein dairy tour.
1667 Corn picker two row, machinery
- 1668 Loading ear corn dryer, machinery
1669 Aerial view, westland canal shows drifting effects, ca. 1949
1670 Sand drifting, ca. 1949
1671 Mechanical fertilizing spreader, ca. 1949
1672 Stacking pea vines with bulldozer used of silage for cattle, ca. 1950
- 1673 Tiller, ca. 1949
1674 Applying anhydrous ammonia to nitrogen tilling it into land, ca. 1949
1675 Erosion rill & gully, ca. 1949
1676 Crop dusting
- 1677 Field burning, Umatilla County
1678 Soil conservation, Umatilla County
1679 Soil Conservation, ca. 1948
1680 Safflower crop, ca. 1948
1681 Stacking Pea vines, ca. 1949 used for silage for cattle
- 1682 Harold Dobyns, fixing bate for Rat Control, ca. 1948
1683 Harold Dobyns, showing Rat runway in rock foundation of barn, ca. 1948

- 1684 Vic Johnson, Raphael R. Helix, Livestock thefts in Umatilla County increased in 1947, Metal signs made.
- 1685 Harvesting flops by machine.
- 1686-87 Burning potato vines, with a three row burner, machinery
- 1688 LeRoy E. Fuller on right, ca. 1947
- 1689 Pea harvest, ca. 1947
- 1690 Mormon Cricket Control, Bait mixing station, ca. 1947
- 1691 Baled Pea vines
- 1692 Weed control, spraying wild Morning Glory, Essick Sprayer, ca. 1947
- 1693 Weed Control, weed equipment Demonstration, ca. 1947
- 1694 Insect Vacuum Sweep, used in green pea field to control aphids and weevils
- 1695 Rear view, Insect Vacuum Sweep
- 1696 1946 Dixie Wonder Peas, Wm. Cyrus, Victor Johnson
- 1697 1946 Umatilla County, Stacked pea vines being burned.
- 1698 Elgin wheat, Umatilla County, ca. 1945
- 1699 Pickup hay chopper 1944 machinery.
- 1700 Harvesting Cranberries 1942 Clatsop County
- 1701 Harvesting Cranberries 1942 Clatsop County
- 1702 Clatsop County, Lewis & Clark Scrap Pile, ca. 1942
- 1703 Bulldozer cleared fence trail 1941 Clatsop County
- 1704 Sheep
- 1705 Manure well stacked on top of liquid tank, with drain in to tank making liquid fertilizer.
- 1706 Liquid Manure being applied to pasture fertilizer.
- 1707 Special built pea duster, for control of pea aphids.
- 1708 Duster stopped for refill of dust.
- 1709 Clatsop County, Coyotes, Oscar Ehn, ca. 1938
- 1710 Modern Poultry farm, note fertilizer drying plant in back ground.
- 1711 Lewis & Clark Dairy club members.
- 1712 Dairy showmanship contest, County Fair 1937, Calves.
- 1713-14 Burning oyster shell as a lime source.
- 1715 Root storage system recommended.
- 1716 Liquid Manure Pit.
- 1717 Drawing the liquid manure from the Pit into the Tank Wagon by Gravity.
- 1718 1935 Clatsop County. Spraying peas on experiment plots with High pressure equipment
- 1719 1934 Clatsop County, Flood Damage, showing bank undermined, Seaside District.
- 1720 Break in Dyke during flood, Youngs River District 1934

- 1721-22 1934 Clatsop County, Liquid manure spreader.
1723-24 Showing Pasture Irrigation.
- 1725 1932 4-H Showmanship Contest club Fair, cows
1726 Late pea planting-field
1727 Pea plantings, field
1728-29 Bulb Farm-Daffodils, Clatsop County.
- 1730 1931 Clatsop County, Picking Cranberries.
1731 1931 Clatsop County, Cranberries ready for store house.
1732 1931 Clatsop County, Astoria Column.
1733 1931 Clatsop County, Seaside Beach.
- 1734 Seaside train depot 1930, Dairy Demonstration Train.
1735 Dairy Demonstration Train, 1930 stop at Astoria.
1736-37 1929 Clatsop County, Manure Pit.
1738 Hydro Electric & Irrigation System-Dam
- 1739 Hydro Electric & Irrigation System, part of ditch.
1740 1928 Hydro Electric & Irrigation System, Ditch and Flumer.
1741 1928 Hydro Electric & Irrigation System, End of Flume.
1742 Manure Pit 1927 Clatsop County
- 1743 Start of Manure Pit 1927 Clatsop County.
1744 1949 Lake County Fair
1745 Piling Oats on ground, Adel OR.
1746 1800 tons of Oats piled on ground, Adel OR.
1747 1942 County Judge Boice, oil companies rubber Drive.
- 1748-49 Chetco Cotton Mattress Center, Mattress Making, ca. 1942
1750 1942 4-H Club members collecting Aluminum for Aluminum Drive.
1751 County Agent Office Aluminum Drive in Gold Beach.
1752-53 1940 Curry County Typical Logging Slash burned and then seeded.
1754 1939 Curry County, Note excellent stand of grass secured on logged over land.
- 1755 1939 Curry County, Close up of same area, showing growth of grass seeded in fall,
George Sutton
1756 Curry County 1939, "Hill Wagon" used for hauling posts and wood on steep trails.
1757 1939 Curry County, Type of truck used for marketing all livestock.
- 1758 Wedderburn-Ophir Grazing and Land Improvement Association, and members of
Federal Forest Service.
1759 Showing fire trail completed.
1760 Curry County 1938, Wedderburn-Ophir Grazing Association, building fire trails.
1761 Curry County 1938, Clean up nearly completed on the fire trails.

- 1762 1936 Curry County, Bulbs harvested.
- 1763 1936, Curry County, field bulbs were harvested from.
- 1764 1935 Curry County, Shepherders picnic, Elk River, 4-H girls demonstrating cuts and cooking lamb.
- 1765-66 1927 Clatsop County, Cows
- 1767 1919 Tillamonk Excursion, all together.
- 1768 " " " en route
- 1769 " " " Lunch time on the way.
- 1770 1919 Local Dealer Demonstrates, Farm Machinery.

Box 4 (P020:1771-P020:2359)

- 1771-73 Vesper Burner Demonstration "tree stumps"
- 1774 Alfalfa.
- 1775 1923 Clatsop County, County Clothing Project Committee.
- 1776 Wild Plums packed and shipped daily
- 1777 Cutting scion wood from wild plum patch, buds to be grown in nursery.
- 1778-79 1940 Hydraulic operated corrugator for making irrigation marks.
- 1780 Portable chain drag elevator. Farm machinery.
- 1781 Dr. Don C. Mote with net, Mr. G.M. Gjullin, 1944, Deer flies used "DDT" Pest control.
- 1782 1944 "Human Coyote Getter" Ralph Page at the Hart Mt. Antelope Refuge.
- 1783 Alice Johnson, Victory Garden, ca. 1944, Lake County.
- 1784 Spreader Dam 1944, Robert L. Wier.
- 1785 Hauled Stockwater, Fort Rock.
- 1786 Hauling Alfalfa Ray on a Slip, ca. 1943
- 1787 A typical leak in the Mulkey Flume, ca. 1944
