3. Joyce Dunn weighs cake batters for freezing studies.
4. June Sullivan sterilizing glassware to be used in bacteriological tests on the saliva.
5. Ruth Nitchals collecting blood for analysis.

Engineering

6. Diaphragm-type pressure cell (Engineering).
7. CFR fuel research engine with loading dynamometer.
8. High-Voltage Lab. Electrical Engineering Dept. Dearborn Hall.
9. Graduate research on high pressure-heat hydrolysis in stainless steel bomb reactor.
10. Communications laboratory. EE Dept.
11. Experimental spiral concentrator developed by cooperation with Humphreys Investment Company
12. Laboratory electrostatic separator.
13. Modified automobile head to produce a constant pressure-variable compression ration engine.
14. Load test for a 30 foot span curved chord timber roof truss given to College by Timber Structures Inc.
15. Experimental magnetic separator—front view.

Depts. of Business Ed. and Sec. Science

16. Typing class - showing tachistoscope in use.
17. Typing class in Action. Dr. Fred Winger. Tachistoscope.
