

Edwin Russell Jackman Photographic Collection

Inventory

- 1-18 E. R. Jackman and *The Oregon Desert* publicity, ca. 1964:**
- 1 Close-up of E. R. Jackman leaning against a fence (see also 12x17 & 16x20 oversize boxes)
  - 2 Jackman writing
  - 3 Jackman at Albany Kiwanis Club podium
  - 4 Jackman in a field
  - 5 Jackman with a horse and colt
  - 6 Jackman in a field
  - 7 Jackman in a field by a fence
  - 8 Jackman with cattle
  - 9 Jackman with cattle, silos in background
  - 10 Jackman with horse
  - 11 Jackman leaning on a fence post
  - 12 Jackman and Art Jaeger
  - 13-16 Parade float advertising *The Oregon Desert*, Sept. 1964 (color prints)
  - 17 Bill Hall, E.R. Jackman, Bill Cyrus
  - 18 Jackman and three other men with the book *The Oregon Desert*
- 
- 19-26 Horses
  - 27-28 [removed from collection]
  - 29-53 Range improvement; William Currier, Rube Long, E. R. Jackman
  - 54-62 Reub Long
  - 63 Reub Long and E. R. Jackman in front of a church, 1962 (color slide; see P89:565 for b/w copy negative)
  - 64 Reub Long and E. R. Jackman (color slide; see P98:38 for color print)
- 65-103 Cattle ranch pictures:**
- 65 Bailing hay
  - 66 Stacks of hay bails
  - 67 The Venator ranch is typical of many. Isolated, shaded by lombardy poplars, bay lands along the creek, a reservoir to store winter run-off, surrounded by range lands for miles
  - 68 Branding irons
  - 70 Starting the pack on one of Reub Long's horses (photo by Jones Studio, Lakeview, Oregon)
  - 71-72 Cattle drive (photos by Joe Van Wormer, Bend, Oregon)
  - 76 Blacksmith

- 77 The bell is rung at an Eastern Oregon ranch house and the family and hired hands gather at meal time
- 78 Corral fence made from willows from a nearby stream
- 79 This cave was carefully explored and sandals were found buried under volcanic dust.  
They were nearly 10,000 years old
- 80 Meat house on Harney County ranch
- 81 Jack rabbits undercutting hay in winter
- 82 The only supply of water in the desert east of Bend is from windmills. On Reub Long's holdings there are no streams or lakes; 1937
- 83 Haystack with protective fencing
- 84 Hole is middle of alkali lake bed. Ft. Rock in background
- 85 Quarter Circle 'U' Ranch in Big Horn County, Montana, June 1939 (photo by Arthur Rothstein, Farm Security Administration)
- 86 Herding cattle (photo by Harmon, Agricultural Adjustment Administration)
- 87 Branding calves on Eastern Oregon ranch (Oregon Historical Society photo)
- 88 Branding on Harney County ranch
- 90-91 Eleanor Long, left, and Reub with some neighbors gather to move some of Reub's cattle (photos by Joe Van Wormer)
- 92 Cattle moving from winter feed grounds in spring to range in Harney County
- 93 Cattle in the distance trailing from the range to the hay meadows in Harney County
- 94 Cattle feeding on hay in corral
- 95 The "drag" take more effort than all the rest of the herd
- 96 A large outfit in Harney County is moving their cattle from range to meadow. This process of moving livestock to follow the grass has been going on since Biblical days
- 97 Pond made by catching run-off water when the snow melts (photo by Harmon, Agricultural Adjustment Administration)
- 98 Completed yellow pine trough. This trough has a ten-foot water space and 100 gallon water capacity. It is 20 inches wide, 14 inches deep, and 10 feet long. The average length of time spent on construction is 16 man hours per trough. This time is inclusive from the first step in falling the tree until the final work has been completed. It is four miles south of Gibbon, Umatilla County, Oregon; January 14, 1936
- 99 "Shootin' the Breeze;" cowboys on horses (photo postcard by H. H. Sheldon)
- 100 Meat type and performance is what cattle are selected for on the A Bar L (Williams') ranch and other ranches in Grant County
- 101 Scales change the picture from number of cattle to pounds of beef produced on the J. W. Southworth ranch near Seneca, Grant County, Oregon

**Edwin Russell Jackman Photographic Collection**

Page 3

- 102 Marcus Haines trailing his high quality cattle to summer range. He ranches on Blitzen  
River near the big wild life refuge
- 103 Two men holding rope for cattle branding
- 104 Old barn on the Whitehorse Ranch. Wind vane is a white horse; 1899
- 105 An everyday scene in Burns at the turn of the century; shows Voegtly Hardware store
- 106 Old time cowboy back in the former century [missing]
- 107 Bunch of early cowboys near Silver Lake [missing]
- 108 Notices for publication [missing]
- 109 "Buy Oregon Salt" advertisement [missing]
- 110 Notice for publication [missing]
- 111 C. L. Robinson, dairy farmer, and daughter Jane in Tillamook, Oregon
- 112 Cow with two calves
- 113 Range cattle on desert with Steens Mountain behind (OHS photo)
- 114 Cattle drive, 1927
- 115 Cattle branding, ca. 1890s
- 116 Cowboys eating while on the drive
- 117 Bringing in supplies by horseback near Steens Mountain
- 118 Camp in Steens Mountain
- 119 Group of cowboys in Paisley in front of Pioneer Saloon, ca. 1900
- 120 Wagon in front of "Lakeview House," ca. 1890
- 121 Starting to hay on ranch in desert, done with horses
- 122 Coyote Jack, an old time noted "varmint" trapper in Harney County
- 123 Old bridge at north end of Silver Lake with Table Mountain in background
- 124-127 Sheep:**
- 124 Hauling wool out of Burns, ca. 1900
- 125 Old time sheep shearing scene
- 126 Sheep killed as a result of the Lake County Range War
- 127 Shearing sheep in Umatilla County, ca. 1900
- 128-132 Rabbits:**
- 128-131 Rabbit drives, Burns
- 132 "Bounty Petitions Approved" newspaper article. Jack rabbits were one of the many  
desert hazards. Harney County put a bounty of 5 cents a head, but the county  
court,  
alarmed, soon removed it, for it would soon have bankrupted the county
- 133-138 Teaming:**
- 133 Teaming in desert of Nevada in 1910
- 134 Hauling water in the desert

**Edwin Russell Jackman Photographic Collection**

Page 4

- 135           Freighting wheat
- 136           Jerk line freight team of Mr. Down of Lakeview. Eight horses, three wagons,  
driver  
              rode the left or "near" wheel horse (Lake Co. Museum photo)
- 137           Combine in Wasco County. Deschutes River on right and Columbia in  
background,  
              ca. 1920 (Photo by Markham, The Dalles)
- 138           George Strachan's combined wheat harvester and thrasher, Sherman Co., ca. 1910  
(photo by W. A. Raymond, Moro; see also P89:394 & 12x17 oversize box)
- 139-144       Miscellaneous camps, teams
- 145           Silver Lake Reds baseball team, ca. 1900 (photo by Matthews, Lakeview)
- 146           Ad for Lakeview Abstract & Title Co.
- 147-161       Sheep, shelters, on the range, in the desert
- 162-215       Photos of desert grasses and range conditions. Includes Bert Hawkins, Reub  
Long, and E.R. Jackman:**
- 162           Recovery of nomad plants after 7 years of pasturing "out-of-sight," June 1952
- 163           Crested wheat grass
- 164           Edge of desert, road in left foreground
- 165           Typical desert spot, not much grass
- 166           Desert in northern Lake County
- 167           Observational grass nursery at an elevation of 4500 feet. Elevation has a marked  
effect on the value of different species for erosion control. Umatilla County,  
May 27, 1938 (photo from Soil Conservation Service)
- 168           Blue grass original 10 acre field hand planted in 1953. Seed yield 840 pound per  
acre  
              in 1954
- 169           Potato? field being irrigated, ca. 1930
- 170           Hughes Livestock Company Ranch, Morrow County. Alfalfa grass improved  
range  
              on left. Unimproved range on right, June 13, 1957
- 171           Inspecting grass
- 172           Orchard grass seed crop grown on the Clackamas County farm at Mt. Pleasant
- 173           1928 growth of agropyron cristatum; seed sown May 4, 1927
- 174           Broken fence (nitrate negative)
- 175           Desert picture taken from car window, 1961
- 176           Bert Hawkins is proud of this excellent bunch grass stand. This is in about a 10  
inch  
              rainfall range country (Vale, Malheur County)
- 177           Large fenced range seeded to crested wheat grass, Squaw Butte, 1954
- 178           Garfield County overgrazed and properly grazed range 5 miles southeast of  
Pomeroy

**Edwin Russell Jackman Photographic Collection**

Page 5

- vigorous as they occur on either side of a fence. The properly grazed range show the  
stand of bunch grass has been practically destroyed; March 1938 (SCS photo)
- 179 Central Oregon project, Gordon field west of camp. Crested wheat seeded 1937,  
grazed this season to an average height of seven inches. Only cattle on field this  
season. Redmond, Oregon, Sept. 10, 1942
- 180 Madras L. V. project, fair Juniper sagebrush, April 2, 1942 (photo by W. T.  
White)
- 181 The high desert area. This is typical of the vast "Great Basin" which has no outlet  
to  
the sea, comprising central and southeastern Oregon, nearly all of Nevada and  
Utah,  
part of California, Southern Idaho, and small portions of Wyoming and Arizona.  
Crested wheat grass is the only crop which will succeed on millions of acres of  
this  
high arid desert country
- 182 Native bunch grass roots (left), crested wheat roots (center), cheat grass roots  
(right).  
This shows why an annuals, such as cheat grass, is less productive in poor years  
than  
a perennial
- 183 Art Sawyer, left, Roscoe Bell, 1953
- 184 Silver Lake unit; October, 1959
- 185 Following range fires, as in this picture, the land should be seeded to grasses or  
grass-  
alfalfa to prevent erosion and keep unwanted weeds and shrubs from taking the  
area
- 186 Area sprayed in spring 1958; high kill of sage, Oct. 1961
- 187 Long allotment; Juniper has come in since 1939; 1961
- 188 Reub Long allotment
- 189 On the Eleanor Long ranch, November 1961
- 190 Car driving along desert road (see 16x20 oversize box)
- 191 Overgrazing vs. under grazing along John Day Highway, 1955
- 192 First cutting of alfalfa irrigated by run-off
- 193 Well cared for range on left, eaten on right of fence
- 194 Winter pasture on the desert, November 1961
- 195 Typical desert vegetation: sage brush, rabbit brush, a few animals, not much grass
- 196 Cow in pasture (Nebraska?)
- 197 Reub Long allotment; desert pasture with rabbit brush growing out of cracks in  
rocks
- 198 H. A. Schoth (left), agronomist with the U.S. Department of Agriculture at  
Corvallis,

## Edwin Russell Jackman Photographic Collection

Page 6

- discusses seed production with Charlie Hoover (right) in a field of ladino clover, 1950
- 199 Seeding crested wheat grass helped this range; unseeded part on left, 1954
- 200 Fence with wheat growing on one side; range land on the other, ca. 1930
- 201 Reub Long
- 202 Reub Long ranch where range fire burned 10,000 acres
- 203 Clover? spreading via runners
- 204 Brushy range where grasses are weak. No livestock on this range for over 20 years.  
First step to improve such a range is to get rid of sagebrush, May 6, 1954
- 205 Wheat field?
- 206 Fort Rock L. U. Project. Area covered with rabbit brush and sage. Typical of a large area in this portion of the project. Redmond, Oregon, September 1942
- 207 Burned over grazing land west of Deschutes River, September 1939
- 213-215 Desert plateaus, ca. 1915
- 216-241 Indian artifacts (part of Reub Long's collection):**
- 216-219 Pictographs and Indian writings
- 220-224 Arrowheads from Reub Long's collection
- 225 Stovepipes from Fort Rock area, collected by Reub Long
- 226-228 Stone utensils-knives, spearheads, etc.
- 229 Sandal nearly 10,000 years old; found in a cave on Reub Long's ranch
- 230 Cowboys at entrance to Reub Long's cave where sandals were found
- 231-232 Entrance to cave
- 233-234 Rocks which show how Indians used weights to hold down their tepees around the edges while hunting in the winter
- 235-241 Paiute Indians in and around Burns, Oregon (photo by Bob Lemons Studio, Burns)
- 242-257 Deserted homestead and ghost town:**
- 242 Fred Wright in abandoned desert shack
- 243 Mounting block used to help ladies step into buggies or mount sidesaddles
- 244-246 Windmill at Fremont, on the Reub Long Ranch
- 247 Homemade device for hanging up a beef for home use
- 248-250 One of Reub Long's bulls at the ghost town of Fremont
- 251 Deserted homestead surrounded by windblown soil, fifteen miles south of Boardman  
in Morrow County, May 1937 (Soil Conservation Service photo)
- 252 Tumble down homestead shack near Fort Rock, ca. 1962
- 253 Remnants of old barn in snow, near LaPine
- 254 Abandoned homestead, 1962 (photo by Merritt Parks)
- 255 Abandoned log homestead
- 256 Abandoned homestead in Morrow County

**Edwin Russell Jackman Photographic Collection**

Page 7

- 257 Fence
- 258-280 Game, birds, and fish:**
- 258 Wild geese in a harvested rye field north of Lakeview
- 259 Horned owl near Fort Rock
- 260 Young eaglet
- 261 Golden eagle, newly hatched, on Cougar Mt. near Fort Rock
- 262 Wild geese, Harney County
- 263 Desert hawk
- 264 Young magpies
- 265 Desert grouse (photo by Joe Van Wormer)
- 266 Fish displayed, taken from Donner & Blitzen River near Steen's Mountain
- 267 Porcupine
- 268 Rodent
- 269 Coyote
- 270 Golden mantle
- 271 Bobcat in snow
- 272-280 Deer and antelope (several photos by Joe Van Wormer)
- 281 Marshall Churchill, front center, with men from saw mill, Western Cooperage Co.,  
Olney, Oregon, ca. 1914
- 282 "Big Sam" with wife, Caroline, and son, Sam
- 283 "Big Sam," second from right, and a big log, Western Cooperage Co., Olney, Oregon
- 284-285 Saw mill, Burns, Oregon? (photos by Bob Lemons Studio, Burns)
- 286 "Beaver slide" in action. Cheapest way to stack hay
- 287-298 Juniper trees (several images)
- 299 Windmill
- 300-301 Hart Mountain, Lake County
- 302 Highway next to John Day River, ca. 1925
- 303 John Day River
- 304 Steens Mountain
- 305 Malheur Cave, Harney County
- 306 Corrals near Steens Mountain
- 307 Blitzen, Oregon (Catlow Valley), west side of Steens Mountain, ca. 1915
- 308-310 Fort Rock
- 311 Geyser at Lakeview, Oregon
- 312 Crump Geyser, Lake County, at the foot of Hart Mountain
- 313 Geyser at a hot springs near Lakeview
- 314 Barbed wire fence, Navajo County, Arizona, Sept. 1937
- 315 Cross fence dividing a large pasture, Morrow County, July 1938 (SCS photo)
- 316-317 Abert Rim, Lake County

**Edwin Russell Jackman Photographic Collection**

Page 8

- 318-320 Pasture Rock, 1962 (photos by Merritt Parks)
- 321-325 Lava flows and ice cave
- 326 Kiger Gorge, near Steens Mountain; only example of glaciation in SE Oregon  
(State Highway Commission photo)
- 327 Rim of a "blowout" (crater), 1962 (photo by Merritt Parks)
- 328 Rim rocks in eastern Oregon
- 329 Willow Creek coming out of hills onto the desert, Abert Rim
- 330 Water behind the dam in Snake River
- 331 Smith Rocks State Park, by the Crooked River near Redmond (State Highway  
Department photo)
- 332 Goose Lake, California (color postcard)
- 333 East Park Feed Canal diversion dam, part of the Orland Project, California
- 334 Scene in Blitzen, Oregon
- 335 Crater northeast of Christmas Valley (photo by Betty Morehouse)
- 336 Lakeview-Burns Highway
- 337 Face of a rock rim on the desert with Juniper trees above
- 338 Hole in the ground 300 feet deep and 1 mile across
- 339 Mt. Adams, Washington (photo by Benjamin A. Gifford, 1910)
- 340 Polluted recreation site
- 341 Person in a boat on the river (photo by Wes Taft, Jr.)
- 342 Cattle on range; rim rock in background
- 343-344 Desert scenes
- 345 Fort Rock
- 346 Carrying the mail to Blitzen, ca. 1900
- 347 Hauling supplies in Baker County, ca. 1875
- 348 Homesteading in Harney County, ca. 1912
- 349 W. S. Richards, known as "White Horse Daddy," Burns, Oregon, March 1927
- 350 John Day River
- 351 All that's left of Fremont: fences and a windmill, 1962 (photo by Bud Parks)
- 352 Old time posse in Harney County
- 353 Cattle drive
- 354 Rim Rock country of Lake County, ca. 1940
- 355 Cattle gate
- 356 Tepee rings on Indian hunting grounds. Indians would pile rocks around the  
edges  
of the tepees to hold them down during fierce winter winds; near Lakeview
- 357 Devil's Garden
- 358 Dinner bell on Harney County Ranch
- 359 Sheep Rock along Oregon Route 19 north of Dayville; Fossil rock in contrast to  
cattle  
grazing along the bank and in the John Day River (State Highway Dept. photo)
- 360 Silver Lake unit running over a normally dry road with big juniper trees in its

**Edwin Russell Jackman Photographic Collection**

Page 9

- path,  
October 1957
- 361 Abert Rim, a 3000 foot high fault in the earth's crust  
362 Approaching Steens Mountain, a fault over 9000 feet above sea level  
363 Ft. Rock at R. A. Long Ranch  
364 Picture of Gorge, John Day River in Grant County  
365 County road in Harney County  
366 Harney County, road to California  
367 Part of Reub Long collection of Indian artifacts  
368 Terraces on range land made with a caterpillar and terracer. Work was done in the spring of 1937 on the J. J. Wells farm in Morrow County, Oregon (SCS photo)
- 369-378 Erosion:**
- 369 Severe sheet erosion in walnut orchard in Washington County, Oregon, on Olympic clay due to an unexpected cloudburst on June 13, 1936 (SCS photo)
- 370-372 Examples of erosion on hillsides
- 373 Severe washing in winter wheat on the Sheard farm in Umatilla County, Oregon.  
A  
48 hour wash from a 40 acre drainage on a 5 percent slope cut this gully 8 feet deep  
and 15 feet wide, March 1936 (SCS photo)
- 374 Erosion on George Harths slope, March 1940 (print & nitrate negative)  
375 Erosion on Miller farm, Dufur, February 1940 (print & nitrate negative)  
376 Ditches washed on hillside are the small ditches that were left by sod weeders making a good place for runoff, February 1940 (print & nitrate negative)
- 377 Erosion on ground planted to wheat in fall of 1939, Feb. 1940 (print & nitrate neg.)
- 378 Gully in drainage way of summer-fallowed field caused by local cloudburst on August 31, 1937. It is estimated that approximately 3 inches of rain fell in less than an hour.  
(Soil Conservation Service photo)
- 379 Cover crop in Oregon orchard  
380 Typical Western Oregon landscape including orchards, rolling hills, and fir forests  
381-383 Pear orchard  
384 Hybrid onions packed in crates in field to avoid bruising and to haste drying, 1955  
385 Cherry orchard in Wasco County (The Dalles), ca. 1920  
386 Three children eating watermelon in a watermelon field in Irrigon, Oregon, ca. 1930  
387 Hand seeder in operation

**Edwin Russell Jackman Photographic Collection**

Page 10

- 388 Haying in Jackson County
- 389-390 Stackers used in haying
- 391 Alfalfa seed harvesting in Union County
- 392 Disc tiller plow used for sagebrush plowing, Fremont National Forest
- 393 Sagebrush removal, Lake County
- 394-396 Harvesting wheat by old horse drawn method, ca. 1900 (see also P89:138)
- 397 Discing wheat by old horse drawn method
- 398-399 Aerial spraying of sheep (missing)
- 400 Wagons transporting sacked wheat
- 401 Transporting wheat (probably Weatherford) by wagon to Arlington
- 402 Transporting wheat by wagon (photo by Ben Leghorn)
- 403 Martin Hansen's wheat teams at warehouse at Moro, Sherman Co., 1914 (photo  
by  
    Will Raymond)
- 404 Wagons hauling wheat in the Columbia Basin
- 405 Wagons hauling wheat to warehouses
- 406 Hay stacker
- 407 Warehouse interior with sacks of wheat, 1946
- 408 Wheat harvesting with horses, Morrow County, 1924
- 409 Stacking hay, P. W. Hotchkiss ranch, Thomas Creek district, August 4, 1932
- 410 Stacking hay
- 411 Harvesting hay
- 412 "Off-set" disc is widely used in the west. Works well on deep soils without rock
- 413 30 inch disc plow used to chop up straw so that the rod weeders and drills won't  
keep  
    clogging up
- 414 Rebuilt three bottom, 16 inch plow, Pullman, Washington, Oct. 1935 (SCS photo)
- 415 Drill with packers, Squaw Butte, 1954
- 416 [removed from collection]
- 417 Cattle grazing, Herman Oliver ranch, John Day
- 418 Cattle grazing
- 419 Cattle grazing on irrigated alta fescue near Pendleton
- 420-424 Cattle (see 12x17 oversize box for #422)
- 425 & 427 Cattle in small feed lot, Harney County
- 426 Small feed lot
- 428 Cattle on the move
- 429 Moving cattle from fall and spring range to summer range
- 430-433 Sheep grazing
- 434-435 Sheep grazing by the ocean, Curry County
- 436 Sheep grazing in non-irrigated sub clover pasture in Willamette Valley  
(Clackamas  
    County)
- 437 Unloading carload lots of wool at the plant of the Pacific Wool Growers in

**Edwin Russell Jackman Photographic Collection**

Oregon (photo by Acme Commercial Studio)
- 439 Shipping at Coos Bay (photo by Coquille Studio)
- 440 McCullough Memorial Bridge at North Bend
- 441 Girl with dog fishing from dock
- 442 "Hunters" Boiling Geyser at Lakeview, Oregon
- 443-444 Face Rock at Oregon coast, Bandon
- 445 Coos Head Lighthouse (State Highway Dept. photograph)
- 446 Coastal scene, Curry County?
- 447 Myrtle trees border highways in Coos County (State Highway Commission photo)
- 448 Jagged rocks are the backdrop for this beach scene at Shore Acres State Park near North Bend (State Highway Commission photo)
- 449 Hedge bordered walks lead visitors into fragrant flower gardens at Shore Acres State Park where a large variety of exotic plants may be observed (State Highway Commission photo)
- 450 Looking north from Cape Sebastian State Park, ten miles south of Gold Beach (State Highway Dept. photo)
- 451 View of Cape Arago State Park (State Highway Department photo)
- 452 Shipping lumber at Coos Bay (State Highway Department photo)
- 453-454 Trees in Coos County (photos by Coquille Studio)
- 455-456 Logging, modern methods
- 457 Logging with oxen
- 458-460 Big tree on exhibit at the Centennial:**
- 458 Finding the tree (photo by Coquille Studio)
- 459 Falling the tree (photo by Coquille Studio)
- 460 Hauling the tree
- 461-462 Meadow foxtail, Corvallis and Gaston
- 463 Bill Hall, E. R. Jackman, and Bill Cyrus checking alfalfa
- 464 Five year old Nomad, Harold Wright ranch, Hardman, Oregon, May 14, 1954
- 465 Checking Nomad
- 466 Harvey Elliott, Walter Stoneway?, and LeRoy Wright checking Nomad on Elliott Bros. ranch, Bridgeport, Baker Co., 1958
- 467 Joe Narkaus field seeded 1950, Umatilla County, June 1952
- 468 Jackman, Cyrus, and Hall checking alfalfa at Ben Dodson's place, Wamic, Oregon
- 469-470 Alfalfa grazing trial, Eugene Chase ranch, Dufur
- 471-472 E. R. Jackman and Kirk Day on Gavica Ranch in Paradise Valley, Nevada, June

1961

- 473-475 George Russell farm near Vale (photos by Harano Studio, Ontario):**
- 473 Russell and Harry Saniquist (County Agent) examine alfalfa being cut for silage, 1953
- 474 Trench silo, 1953
- 475 Production of grass and legume silage operation, 1953
- 476 Alfalfa seed bed on George Elliot-Ed Bradtl farm
- 477 Home made land plane used on the Elliot-Bradtl farm to make firm seed beds
- 478 Bill Currier inspecting seeding, 1956
- 479 Grass nursery in Ukiah, Umatilla County, 1929
- 480-481 Crested wheat grass
- 482 Polycross bent grass for seed for Atlantic coast lawns and golf courses. Rows are in sets of three, each of which is a different strain. This increases proper cross pollination. These rows are all set out from material grown in greenhouses. One of the very few such fields in United States (Medford). Bohnert, left; Tucker, right
- 483 Merion Bluegrass seedling planted spring 1955 with mechanical planter, Jackson Co.
- 484 Lincoln Brome in Bert Haynes farm, June 1951
- 485 Alta Fescue on Bert Haynes farm, June 1951
- 486 E. R. Jackman and potatoes in field, ca. 1930
- 487 Art King on right, in clover? field
- 488 Grazing land
- 489 Cover crop of oats and vetch in apple orchard just beginning to head, Santa Cruz Co.,  
Cal. Vegetable cover is one of the best preventatives of erosion, March 1936 (SCS photo)
