Detailed Description of the Collection

Series I. Architectural Drawings and Plans, 1901-1999 1928-1991 (196 cubic feet (7418 sheets), 151 map folders and 5 oversize boxes)

Series I consists of architectural drawings and plans for construction of or major modifications to most structures on the Corvallis campus and for many at other OSU locations throughout the state. They include facilities used for teaching, research, administration, athletic events, and student housing and dining. This series also include plans for buildings constructed by the United States Department of Agriculture (USDA); projects pertaining to campus-wide systems or multiple buildings; structures at Camp Adair and Adair Village; research vessels; and buildings for which plans were prepared but were not constructed. The lists of building plans typically use the current name of OSU buildings.

Individual Structures, 1901-1999 (140 cubic feet (5531 sheets), 109 map folders and 5 oversize boxes) [These plans are for construction of or major modifications to more than a hundred individual structures on the Corvallis campus and at other OSU locations in Oregon. They include facilities used for teaching, research, administration, and athletic events. A plan-level list with building name, plan title, date, architect, and number of sheets is available online.]

Student Housing, 1928-1996 (25 cubic feet (1103 sheets), 18 map folders and 2 oversize boxes) [The Student Housing plans are for student housing and dining structures. They include plans for Arnold Dining Hall and Bloss and Finley Residence Halls; Buxton, Cauthorn, Hawley, and Poling Halls; Azalea House; College Inn; Heckart and Reed Lodges; the Housing Service Building; Married Student Housing; Sackett, Snell, and Weatherford Halls; and the West Hall Dormitory and Cafeteria. Plans for several structures that were not built are also included. A plan-level list with building name, plan title, date, architect, and number of sheets is available online.]

USDA Buildings, 1967-1984 (2 cubic feet (273 sheets), 1 oversize box and 3 map folders) [The USDA Buildings plans are for structures on the Oregon State University Corvallis campus or other properties that were constructed by the United States Department of Agriculture (USDA) for its research units. They include plans for the Forestry Sciences Laboratory, the National Forage Seed Production Research Center, and the Ornamental Plans Research Facility on the Corvallis campus as well as plans for the administrative site at the H.J. Andrews Experimental Forest near Blue River, Oregon, in the central Cascade Range. A list of the USDA Buildings plans is available online.]

Campus Wide, 1948-1993 (25 cubic feet (344 sheets), 2 oversize boxes and 13 map folders) [Plans that document projects that pertain to campus-wide systems or multiple buildings are included in this subseries. These include plans for electrical systems, fire alarm systems, handicapped accessibility and safety deficiency corrections, parking lots, roofs, sidewalks and streets, subsurface investigations, underground fuel tank removal, utility tunnels, and water systems. A list of the Campus Wide plans is available online. Plans pertaining to the utility tunnels are described by plan title; all other plans are described at the folder-level with the range of dates of the contents of each folder.]

Camp Adair (Adair Village), 1946-1979 (1 cubic foot (75 sheets), 1 oversize box and 4 map folders) [The Camp Adair (Adair Village) plans consist of plans for structures used by Oregon State College from the end of World War II (1946) through the late 1970s as well as maps of the camp and village.]

* Adair Air Force Station, 1958-1969 (35 sheets)

Box
107 Adair Village Boundary Survey, 1949 (2 sheets)
* Library Storage, 1973-1979 (3 sheets)
107 Library Storage, undated (4 sheets)
* Maps of Lands and Rights of Way, 1946-1949 (10 sheets)
* Veterans Housing Project for Corvallis, Oregon, 1946 (15 sheets)
Veterans Temporary Housing, 1946 (6 sheets)
Research Vessels, 1959-1963 (2 cubic feet (35 sheets), 2 map folders) [These plans are for oceanographic research vessels built or modified by Oregon State University.]
Not Built, 1930-1975 (1 cubic foot (57 sheets), 2 oversize boxes and 2 map folders) [These plans are for buildings and structures that were not constructed. They include a proposed agricultural engineering building (1953), an agricultural sciences and continuing education complex (1969), a biological science building (1930), family living center (1962), Oceanography III building (1975), Navy ROTC building (1945), and a research laboratory building (1945). In some cases, they represent proposed buildings for which approval or funding was not received. Plans for student housing structures that were not built are in the Student Housing subseries. A list of these Not Built plans is available online; the list provides building name, plan title, date, architect, and number of sheets.]
Series II. Building Project Files, 1938-2002 1974-1998 (84.3 cubic feet including 138 photographs, 87 boxes and 1 map folder)

The building project files document the construction, renovation, and maintenance of various OSU buildings and include building specifications, contracts, correspondence, project manuals, progress reports, contract insurance reports, agreements with architects and engineers, contract proposals, and statements of qualifications. Structural repair and maintenance projects are also described in this series and cover insulation installation, re-roofing, and HVAC system management. Architectural drawings and plans have been separated to Series I. Records documenting the selection and installation of artwork funded by the Percent for Art public art program are also included in this series. The series includes photographs (indicated below). This series includes records pertaining to capital construction projects.

Series III. Building Specifications and Reports, 1909-2003 (12 cubic feet, including 8 photographs, 15 boxes and 1 map folder)
Series III consists of building specifications for construction and renovation of various OSU buildings and structures and reports regarding campus planning, proposed structures, campus traffic flow, building accessibility for the disabled, and planning reports by the City of Corvallis. Building specifications for the construction of numerous campus buildings in the 1950s through 1970s are included, such as the residence halls, Cordley Hall, Dixon Recreation Center, Kerr Library, Nash Hall, Peavy Hall, the Radiation Center, Rogers Hall, Snell Hall, the Veterinary Medicine teaching hospital, Weniger Hall, and Wilkinson Hall. The series also includes specifications for several structures completed in the 1920s and 1940s, such the Dairy, Horse, and Sheep Barns; Covell Hall, Gill Coliseum, and Sackett Hall. This series includes the 1909 campus plan by the Olmsted Brothers landscape architects.

Series IV. Capital Construction Project Files, 1962-1997 (8.5 cubic feet including 6 photographs, 11 boxes)

Series IV documents building construction projects budgeted for $100,000 or more. The Capital Construction Project Files contain bid documentation, correspondence, memoranda, photographs, as well as meeting minutes from the Oregon State System of Higher Education (OSSHE) Building Committee. The bulk of the records in this series pertain to the construction of Burt, Nash, and Peavy Halls and the Bloss and Arnold residence halls. This series includes the 5000 files for several projects in the mid-1990s: dock construction at the Hatfield Marine Science Center; renovations at McNary and Milam Halls; construction of the Property Administration Building; reconstruction of the Industrial Building (Cascade Hall) after the 1992 fire; renovations at Withycombe Hall for the University Theater; and ADA upgrades at Langton Hall and the Women's Building. Additional materials pertaining to these and other capital construction projects are available in Series II, III, and VI.
