

OSU LIBRARIES AND PRESS PRESENTS

COMMUNICATING OUR VISION OF NATURE

Scientific Illustration Through the Ages

**David Maddison, Rice Professor in
Systematic Entomology, Department of
Integrative Biology**

For centuries, illustrations have been a key means of communicating our scientific understanding of the world around us. They provide both beauty and clarity: the dialogue between the art and the science has itself influenced our understanding. Through his perspective as a practitioner of both science and of illustration, David Maddison will discuss the evolution and impact of scientific illustrations through time.

**THURSDAY, APRIL 26
4:00 P.M.**

Special Collections and Archives Research Center
5th Floor Valley Library

Free and open to the public
Lecture followed by refreshments

+ + + +

Collections at the Center is a new series from the Special Collections and Archives Research Center inviting the OSU campus to engage with materials from our vast collections through expert lectures, participant discussion, and close observation of historic objects.
