Accession 2002:029 – Motion Picture Films and Videotapes, 1952-1990

This accession consists of 780 motion picture film reels and 75 VHS videotapes of Oregon State football and men's basketball games recorded by Intercollegiate Athletics staff. Most of the games are regular season conference events; however, the accession does include non-conference games against Syracuse, Kentucky, Wyoming, Portland State University, and others as well as a NCAA basketball tournament game against Kansas State University. The accession also includes one reel of Super8 film of a track and field event. Many of these films, especially the football films from the 1970s and 1980s, were used for game review purposes by coaching staff and players.
